Lancaster Farming

VOL. 18 No. 8 | Lancaster Farming, Saturday, January 13, 1973 | $2.00 Per Year

Lancaster Farming Photo

Elvin Hess Jr., Strasburg R1, chatted briefly with Governor Milton Shapp and Pennsylvania Secretary of Agriculture Jim McHale last Sunday during opening ceremonies for the 57th Annual Pennsylvania Farm Show in Harrisburg.

Greg Landis— Star Farmer

Determination. Hard work Planning Leadership Devotion Willingness Disappointment, perhaps These are just a few of the qualities which went into the naming of Greg Landis as the 1973 Eastern Regional Star Farmer this week during ceremonies at the mid-winter FFA Convention at the Forum in Harrisburg

The Star Farmer award is the highest degree it is possible to attain in the FFA on the State level One deserving recipient is named from each of the four regions in the state and from these regions the overall State Star Farmer is named

Greg, son of Mr and Mrs Jay E Landis, Lancaster RD6, is a senior student at Penn Manor High School A very active, interested student, Greg has been serving this past year as president of the Lancaster County FFA He also has been a wrestler, cross-country team member, plays in the school band, likes to hunt and fish, and

Lancaster Farming Photo

Greg Landis was named the 1973 Star Farmer for Pennsylvania's Eastern FFA Region on Wednesday of Farm Show week.

Dauphin Co. Steer Gets Top Baby Beef Prize

Linda Miller became the third member of her family to win the baby beef grand championship at a state Farm Show. She did it with a 1,175 pound Hereford she calls Clyde.

Linda is the daughter of Mr. and Mrs. James Miller, Halifax R2.

A Chester County angus was named reserve grand champion of the show. He was shown by James Wylie, Nottingham R2. Jim is a 16-year-old junior at Oxford High School. His Angus weighed 1,160 pounds.

Eleven-year old Judy Zimmerman showed the reserve champion Hereford, a 1,095 pound steer named Bingo. Judy is in her second year of 4-H baby beef showing and finished the day just one placing behind the steer that won grand champion honors

Judy is the daughter of Mr. and Mrs John Zimmerman, Ephrata R1 Her steer topped his class in the Hereford lightweight category.

Judy's cousin, Linda Good, who was competing in the crossbred class with Fred, a steer weighing 1,355 pounds, also won the reserve championship for that breed.

Linda, 15, is the daughter of

Local Grain

Thursday, January 11

These prices are made up of the average prices quoted by five participating local feed and grain concerns It should be noted, however, that not every dealer handles each commodity. All prices are per bushel excpet ear corn, which is per ton.

The average local grain prices quoted Thursday, January 11, 1973 are as follows·

	Bid+	Offered+
Ear Corn	43.00	49.33
Shelled Corn	1.79	1.99
Oats, Local	.92	1.10
Oats, Western	1.26	1.34
Barley	1.36	1.59
Wheat	2.21	2 [illegible]

+Bid is the price the dealer will buy from the farmer delivered to the mill Offered is the price the dealer will sell for at his mill.

Oklahoma City

Thursday, January 11

Compared with last week's close slaughter steers 25-50c higher, heifers strong to 25c higher Cows 50-1.00 lower with Canner and low-Cutter in narrow demand 1.00-1.50 lower. Bulls fully steady. Feeder cattle fully 50c higher

Four day receipts 24,200 as compared 12,800 previous Holiday week and 22,000 a year ago Slaughter steers approximately 40 percent, heifers 36 per cent, cows 9 percent, feeders 12 percent Overall finish steers and heifers attractive with a liberal percentage Choice and moderate volume high-Choice and Prime Mud still in evidence but not as prevalent as the previous week. Fed cattle trade fairly active even in face of rather liberal marketings and a slow moving early carcass trade Most buying interests came into week with modest inventories on hand accompanied by a broad demand Good outlet for cattle to be slaughtered at points outside the immediate Omaha area

Average cost slaughter steers first three days 39.06, this highest price of record locally, average weight 1106 pounds as compared 38 89 and 1140 pounds previous week and 34.67 and 1132 pounds a year ago.

FEEDERS: Outshipments approximately 2,700 as compared 1,200 for previous Holiday shortened period. Prices fully 50c higher under an agressive demand, supply again largely fleshy two-way steers and heifers.

ANNOUNCEMENT - 1-9-73 U.S D.A banned the importation of all fresh poultry meat into the U S and placed restriction on the importationof table eggs. The new restriction on table eggs requires that all imported eggs be washed, sanitized, and packed in new cartons, flats, dividers, and crates. Further, these eggs must be certified by a veterinary official of the exporting nation as having come from flocks proved to be free of Newcastle disease through the use of sentinel birds. Certification will not be required if the eggs are sent under seal directly from the port of entry to an approved egg processing plant for breaking and pasteruization under federal egg inspection supervision The same exemption for poultry meat from Canada will cover eggs imported from Canada

THE OLD FARMER'S ALMANAC

JAN. 15-21

Old Farmer's Riddle: Which candles burn longer, the candles in a birthday cake or those in a candlestick? (Answer below.)

Ask the Old Farmer: This bothers me. What becomes of the millions and millions of fish that die in the ocean? The ocean floor must be feet deep with them. The big ones eat the little ones, but they too have to die M F S , Parsons, Kan.

You must have been reading that poem about the 'great fleas have little fleas upon their backs to bite 'em" and so on. Things don't work like that in the ocean If a big fish gets crippled, it's more likely that several hundred little ones tackle him and clear him to the backbone Whatever goes to the bottom, and there is plenty, works out just like fertilizer on a corn field. As a matter of fact, the bottom of the ocean raises a crop of vegetation every year or oftener.

Home Hints Shake coarse salt on window sashes to prevent them from freezing When a broom wears shorter on one side, dip it in hot water, trim it evenly with hedge shears and it will sweep better *Riddle answer* They all burn shorter

OLD FARMER'S WEATHER FORECASTS

New England: Cold at first with some light snow, lows near 0 inland; generally clear and cold latter part.

Greater New York-New Jersey: Rain to start, then mixed with snow by midweek; week ends partly cloudy and warmer

Middle Atlantic Coastal: Begins with light snow, then heavy rain by midweek; generally cloudy and cold latter part, and rain for weekend.

Southeast Coastal-Piedmont: Rain and mild at first, heavy rain by midweek, then clear and cold; mostly clear and very warm for weekend

Florida: Warm until midweek, then cold with frost in north; end of week partly cloudy and warmer.

Upstate and Western N.Y.-Toronto & Montreal: Light snow to start, then very cold by midweek; milder with intermittent light rain latter part

Greater Ohio Valley: Begins partly cloudy and milder, then intermittent flurries, gradual warming with light rain latter part.

Deep South: Rain, heavy through midweek, then clearing and very cold, cloudy, much warmer latter part, then showers

Chicago and Southern Great Lakes: Light snow most of week; cloudy and warmer with light rain for weekend

Northern Great Plains-Great Lakes: Light snow to start, then slightly warmer, cloudy, colder latter part, then light snow changing to freezing rain

Central Great Plains: Week begins cloudy and cold, then flurries but clearing and colder in west; end of week warmer with light rain

Texas-Oklahoma: Partly cloudy and warm at first, then clearing and cooler with showers latter part; partly cloudy and hotter for weekend

Rocky Mountain Region: Begins clear and cold, then milder; latter part cloudy, 3-5" snow for weekend

Southwest Desert: Clear to start, near freezing by midweek; warmer, highs near 70s latter part, then cloudy with rain and cooler.

Pacific Northwest: Light rain and warm at first, then rain mixed with snow for rest of week

California: Rain all week, heavy by midweek and for weekend

Additional Nonfat Dry Milk Imports Authorized

Secretary of Agriculture Earl L. Butz called the attention of food processors and other users of nonfat dry milk to a temporary increase in the import quota for that product.

The increase was made effective by a Presidential Proclamation issued by President Nixon under the authority of Section 22(b) of the Agricultural Adjustment Act, as amended. The Proclamation authorizes the importation of 25 million pounds of nonfat dry milk for a temporary period ending February 15, 1973.

Normally, domestic production of nonfat dry milk exceeds commercial demand and the surplus is purchased by the Commodity Credit Corporation (CCC) which, under the Department's support program for milk, stands ready to purchase non-fat dry milk at a fixed price related to the support price for manufacturing milk. Currently, the milk support price is $4.93 per hundredweight, and the CCC purchase price for nonfat dry milk is 31 7 cents per pound.

Secretary Butz noted that despite a continuing rise in fresh milk production, the output of nonfat dry milk has been lower. Increased amounts of fresh milk have gone into fluid use and into the production of certain processed products, especially cheese and frozen dairy products; consequently, smaller amounts of manufacturing milk have reached the plants which produce butter and nonfat dry milk. The present tight supply situation also reflects seasonal variations, since November and December are the low months of dairy production.

Until late November, CCC continued to purchase nonfat dry milk and until October, to sell substantial quantities back to the trade On October 20, nonfat dry milk was removed from the monthly CCC sales list. In a related action, the Department stopped foreign sales and donations of nonfat dry milk in October. CCC now has no uncommitted inventory.

The current shortage of nonfat dry milk is in some respects comparable to the situation which existed in Europe last year when demand temporarily exceeded supply. In that situation, the U.S. (which normally is not a butter exporter) sold 133.7 million pounds of butter, mainly to the United Kingdom but also to 18 other countries. More recently, on December 5, 1972, the U.S. sold 1,138,743 pounds to Canada.

Users of nonfat dry milk, such as food processors, ice cream manufacturers, candy makers and pharmaceutical firms, have reported increasing difficulties in obtaining adequate supplies of dry milk. Continued shortages could lead users to shift to substitutes, and experience has shown that such shifts in ingredients formulas tend to be permanent.

"We want to keep people in the habit of using milk products," Secretary Butz said.

Losses of important outlets for nonfat dry milk to substitutes would also have a permanent adverse impact on the dairy support program.

The increase in permitted imports is intended to meet the temporary shortage and has been timed so as to permit the inflow of supplies when they are most needed. Within a relatively few weeks, the cyclical upturn in dairy production should cover all requirements.

The temporary increase of 25 million pounds in the import quota will be on a first come, first-served basis; no licenses will be required. The maximum amount which an individual importer may bring in, however, is limited to 2,500,000 pounds. Imports will not be restricted to specific countries of origin.

The importation of most dairy products is limited by imports quotas established by Presidential Proclamation under the Section 22 authority. Section 22 provides for limitations on imports, following an investigation by the Tariff Commission and a Presidential determination, of items found to be interfering or likely to interfere with the price support program for milk. Imports of nondat dry milk have been under quota control since 1953, when an annual quota of 1,807,000 pounds was proclaimed by President Eisenhower.

The emergency Section 22 action will, as provided by law, be subject to an investigation and report to the President by the U.S. Tariff Commission. The investigation will include a public hearing at which interested parties may testify. An announcement by the Tariff Commission is expected in the near future.

The regular annual import quota of 1,807,000 pounds remains in force and is not affected by the emergency Section 22 action. Imports under that quota continue to be subject to licensing.

British Honduras Gets OK to Ship Meat to USA

The USDA announced last week it was adding British Honduras to the list of countries eligible to ship meat to the United States.

USDA's Animal and Plant Health Inspection Service (APHIS) said British Honduras' meat inspection laws and regulations conform to U.S. standards. The one plant that will be exporting meat was found to meet requirements of the USDA inspection program. Chilled fresh beef is the product intended for export.

The Federal Meat Inspection Act requires that a foreign country have a meat inspection program equal to that in the United States before it may export meat here.

British Honduras' inspectors will check each animal before and after slaughter and will check the meat for wholesomeness throughout any processing steps. Members of the APHIS foreign review staff will periodically visit the export plant to check the effectiveness of British Honduras inspection. Once the meat arrives at a U.S. port of entry, it is again checked for wholesomeness by APHIS inspectors.

The proposal to make British Honduras the 45th eligible export country was published in the Federal Register on Nov. 7. Two comments were received on the proposal.

The addition of British Honduras to the eligible list was effective on Dec. 29.

Area 4-Hers Among State Cattle Judging Winners

William Ocker of Shippensburg, Cumberland County, captured the championship in Ayrshire judging competition at the 57th Farm Show with a three-year-old cow, Masonic Homes G Flashy Harriet. William is a member of the Cumberland County 4-H Dairy Club.

Kennard E. Henley, III, Cochranville, Chester County, showing Wauwatosa's M. Minnie, a three-year-old, won the reserve grand championship. Kennard is a member of the Manor 4-H Dairy Calf Club.

Samuel J. Diehl, Bedford, captured both the grand and reserve grand championships in female Ayrshire judging.

Diehl's entry, Cove Creek Fancy Velvet, a three-year-old, won the grand and senior championships. Another cow, a six-year-old, Cove Creek Royal Bonnie 2nd, was judged reserve grand and reserve senior champion.

Junior champion Ayrshire was exhibited by Sharon Lynne Henley, Cochranville. The animal, a senior yearling, is Kenwoody Maestro's Rosebud.

Reserve junior champion was shown by Creek Ayr Farms, Dover, York County, Creek Ayr Flashy Mamie, a senior yearling.

Diehl won both the premier exhibitor and premier breeder awards.

John E. Marchezak, of Bentleyville RD1, Washington County, showing his three-year-old Guernsey, Twin Brook Posy's Rose, won the grand championship in junior judging. John is a member of the Pike Run 4-H Club.

Marchezak also showed the reserve grand champion Guernsey, Twin Brook Posy's Pansy, a heifer calf.

Both the champion and reserve champion are full sisters out of a former Farm Show champion.

Snider Homestead Farm, New Enterprise, Bedford County, captured four major championships in Open Guernsey judging.

Lerson Lawn Jasons Lassie, a four-year-old Snider entry, won both the grand and senior championships, and a junior yearling, Lake Louise Domino Fancy, won the junior championship.

The other Snider animal, a senior yearling, Plain View's Russ Hope, was judged reserve junior champion.

Reserve grand champion of the Guernsey show, Long Land Success Rose, a four-year-old, was shown by Long Lane Farm of Waynesboro, Franklin County. The same cow was declared a reserve senior champion.

The reserve junior champion, Plain View's Russ Hope, a senior yearling, was shown by Plain View Farms, Airville, York County.

Snider Homestead Farm won the premier exhibitor award, and Rutter Brothers, of 2100 N. George St., York, won the premier breeder award.

MANURE PITS

Two Lebanon Honey Exhibits

Two Jefferson County FFA members won top places in vocational honey judging at the 57th Farm Show.

William Sprague, Falls Creek, Jefferson County, was winner in the light comb category, and Dan Schuckers, Reynoldsville, showed the first place exhibit of extra light extracted honey.

Bruce Maulfair, of Jonestown, Lebanon County, RD1, took first with his display of light amber honey; Donald Weidman, Lebanon, exhibited the top extra light extracted honey; and Donald Steeley, Ottsville, Bucks County, showed the best amber extracted honey display.

Shapp Proposes Flood Aid to Farmers

A proposed administration bill to aid flood-striken farmers was announced last Sunday afternoon by Governor Milton Shapp as he opened the 57th Annual Pennsylvania Farm Show in Harrisburg.

The bill, Shapp said, would be introduced at the opening session of the General Assembly. If passed it would provide some $12 million additional assistance to Pennsylvania farmers who suffered heavy losses from Hurricane Agnes. Damages to farm homes, crops, livestock and fields would be covered by the bill.

Direct grants of up to 15 percent of actual damages incurred in excess of $7500 would be paid to farmers There would, however, be a limit of $5000 payable tc any one farm or farmer To be eligible for a $5000 payment, a farmer would have to prove losses of at least $33,333.

Farmers Home Administration flood damage reports will be used to determine the extent of actual losses. Shapp noted, however, that farmers who failed to apply for forgiveness loans through the FHA will be ineligible for state grants

If the bill is passed, it will be administered by the Pennsylvania Department of Agriculture, effective July 1, and will be paid from the state's disaster relief appropriation

Shapp also commented on the Nixon Administratio's move to cut off FHA disaster assistance loans. He said:

"I was disappointed to learn the Federal Government is cutting off applications for Federal Disaster Assistance Loans to farmers by the Farmers Home Administration as of January 15, 1973. I asked the President to extend the cut-off dates twice before and he did I hope he will do so again, but Secretary Butz's comments in yesterday's paper made it appear unlikely. I shall keep trying, and I urge your farm organizations to do what they can to obtain a longer extesnion for filing flood damage applications Many farmers, for whatever reason, have not as yet filed their requests for FHA assistance

"Therefore, I urge you to help us spread the word throughout the Commonwealth All farmers affected by the flood who have not yet applied for FHA loans should get their applications in immediately. We in Pennsylvania have repeatedly asked for more federal assistance for our farmers We have been successful in some cases and unsuccessful in others " And we will keep trying

This is when you get that good feeling

This is pay day.

This is when it all comes back.

The fertilizer. The seed. The interest. The machinery. The thinking. The *work.*

With a profit, if all the inputs did their jobs.

The *seed* is a key. Some hybrids have a superior capacity to produce. To give you *more* corn, from the *same* soil and season.

Profit-minded corn growers have learned Funk's G-Hybrids can be depended upon to do just that. To produce top yields. Year after year. Dependably. In good seasons and—like many years—when conditions are tough at critical times.

Year after year, corn growers with Funk's-G at work in their fields have that *good feeling.*

That good feeling you get when you have dependable hybrids, from dependable people. Funk's G-Hybrids.

Linda Miller topped them all and became the third member of her family to win the baby beef grand championship at a Pennsylvania State Farm Show. Linda is the daughter of Mr. and Mrs. James Miller, Halifax R2, Dauphin County.

James Wylie, Nottingham R2, showed the champion Angus steer at the 4-H Beef Show. He then went on to take the reserve championship in competition with the first place crossbred and Hereford steers. Wylie is shown here with Mrs. James McHale, wife of the Secretary of Agriculture, and deputy secretary, James Kerstetter.

Lancaster Farming Photos

Pennsylvania Governor Milton Shapp said "Bottoms up!" to a giant glass full of the Commonwealth's biggest money-making farm product during opening ceremonies at the Pennsylvania Farm Show. Urging him on was Pennsylvania's dairy princess, who reminded his honor that milk drinkers make better lovers.

Judy Zimmerman, an 11-year-old 4-H'er from Ephrata R1, took reserve champion honors in the Hereford breed on Thursday at the Farm Show. Her steer finished second to the animal that went on to win the grand championship for all breeds.

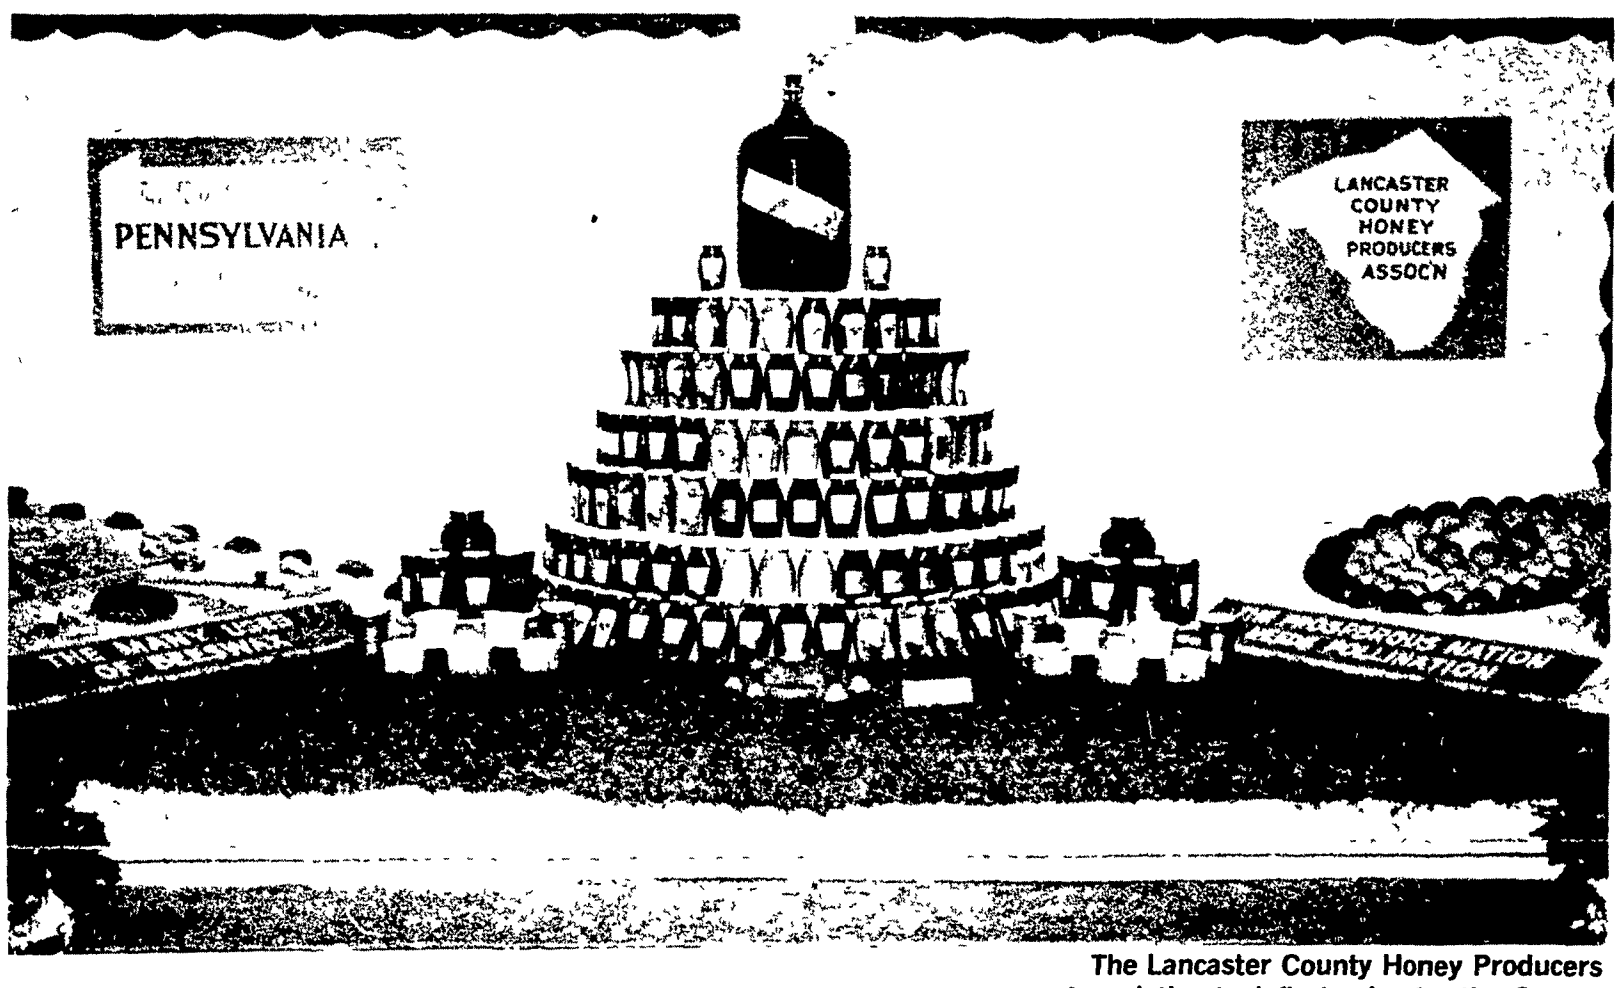
State Corn Club champs for the year were announced on Wednesday at the farm show. Richard Luckenbach, left, York County, had the high ear corn total with 183 bushels. The father-son team of Homer, center, and Harold Moore, Venango County, copped the shelled corn prize with a 226 bushel per acre yield.

Reserve champion honors in the crossbred steer category of the 4-H beef show went to Linda Good, Lititz R2. Linda is shown here with her 1355 pound steer, Fred.

The Governor and the Girls . . .

Governor Milton Shapp's duties at the Pennsylvania Farm Show are largely ceremonial, and mostly pleasant. He got gifts and sales pitches from every Pennsylvania queen, from Apples to Tree Growers. Above, left, we see him getting a lesson on milking from the Dairy Princess. Top, right, the governor is all smiles as he receives an airplane from the queen of the flying farmers. The governor's barely concealed excitement kept mounting as he received the words and the produce of the mushroom growers and the Christmas tree association.

Lancaster Farming Photos



The Lancaster County Honey Producers Association took first prize for the County honey exhibit at the Farm Show. It was the first time the local group took the top award.

An Old Ax To Grind

Grassroots Opinions

MORA, MINN., KANABEC COUNTY TIMES "Fires from smoking in bed are certain to drop after May 31, 1973 because of a new Commerce Department order making mattresses about 99 percent *ignition-proof. Smoking in bed causes a large number of fatalities every year We have yet to hear of anyone's drowning in a* water bed, but we'll bet sea-sickness is not uncommon"

CHESTER, ILL, HERALD TRIBUNE: "It was recently said that 'Too many people quit work as soon as they find a job' This is a bad situation, of course, but when the first thing that many want to know when they are looking for a job is 'Will I make more than I now get from ADC' it is high time the government took a closer look at some of its handout programs"

PROVIDENCE, R I, CRANSTON HERALD: "Today we have turned into a country of talk, talk, and more talk. Most of the talk is in the form of protest, pointing out our inequities, or selling some particular brand of philosophy. But talk at best *is cheap unless it is followed by intelligent resolves."*

TEMPE, ARIZ., NEWS: "American business has shown a willingness to cooperate with the spirit as well as the letter of the economic controls, as repugnant to free enterprise as controls may be . Without labor's cooperation, inflation cannot be broken. As costs rise, prices inevitably follow and the spiral goes on toward chaos...It is time for Congress to quit ignoring this state of affairs and supply antimonopoly curbs to labor's unbridled power"

Fact and Opinion

"In some dim beginning man created the institution of government as a convenience for himself And ever since that time, government has been doing its best to become an inconvenience. Government bureaus and agencies take on a life and a purpose of their own But I wonder if it happens because so many of us - all of us probably - read and hear, and just repeat what we think is a truism - that when a public problem develops, government is forced to step in That is utter nonsense. Government can hardly wait to step in As a matter of fact, government is in the position of the fellow who will make a speech at the drop of a hat" Governor Ronald Reagan of California.

xxx

"Keep away from people who try to belittle your ambitions Small people always do that, but the really great make you feel that you, too, can become great" Mark Twain

xxx

Scrap Age magazine reports, "Standard Oil (Ohio) has come up with an idea reminiscent of the legendary St. Bernard and his keg. For the last two years the company has operated a fleet of courtesy cars along Ohio's major interstate highways, equipped with gas, oil, water, etc., and patrolling for the motorist in trouble."

xxx

Here's a defensive driving tip from the Portland, Oregon, Traffic Safety Commission: "Leave plenty of elbow room around your car in traffic A space cushion will leave you room to stop or swerve in case of an emergency"

xxx

"The 'buck' to control spending really shouldn't be passed to the President. If we the people, and our elected representatives in Congress, don't have the guts to raise taxes or cut spending to keep from bankrupting the United States, then that's all she wrote. There is really no one else in a position to do our dirty work for us" Mr. L V. Hofer

Attend Educational Meetings

One of the really good opportunities farmers and others will have during the winter months is to participate in educational type meetings of many kinds. These are informative, interesting types of meetings providing up-to-date information relating to specific topics.

Technological advances and applications of research work are being applied faster these days than ever before. In order to be fully aware of the changes taking place it is essential to learn about them first from several sources of information. Often times this means separating opinions from facts. Participating in educational meetings provides an opportunity to do just that...get the facts. The immediate weeks ahead should prove quite fruitful in helping make essential decisions relating to the future of individual operations.

Repair Machinery

Proper storage of idle farm machinery and equipment is an important step in preparing for the next crop season. Such good storage reduces repair bills, increases machine life and avoids time loss at crucial periods. It all adds up to saving money.

However, the winter period also is just an ideal time to make needed repairs and check on possible worn parts needing replacement. Carefully observe the condition of the hard operating parts-belts, chains, cylinders, cutting bars, gears, engines.

Manufacturer's instruction manuals, if still available on the machine, offer the very best know-how details and recommendations to obtain the most useful mileage from farm machinery.

Make Early Purchases

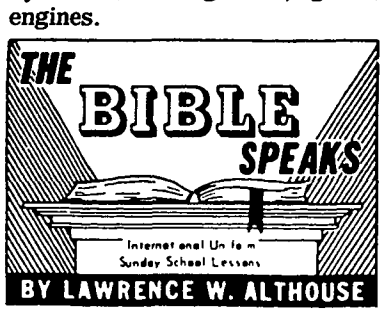
Planning ahead will be most essential for the '73 cropping and growing season. Some essential items, such as seed, will not be in ample supply for all varieties which may be wanted. The fertilizer industry is confident that enough plant food will be on hand by Spring to meet farmers' needs. Agrichemicals, those essential production tools, should also be available in their usual quantity.

Some money and time can be saved by ordering early and taking delivery on such an item, like fertilizer. Take advantage of any discount period which is offered.

Dress Accordingly

When outside on a cold, windy day, it seems colder than the thermometer reads. This condition doesn't mean you're sensitive to the wintertime weather. It merely indicates a personal response to the chill index.. how cold it really is.

More weather comments and timely reports now include the current chill index figure—a combination of wind velocity and temperature. The reading given amounts to interpretation of what the outdoor temperature feels like. It gives the temperature...like it is.



COURAGE TO CHANGE

Lesson for January 14, 1973

Background Scripture Ezekiel 1 1-3, 2 through 4, 33 1-9
Devotional Reading Psalm, 42

Put yourself in Ezekiel's shoes!

He was one of ten thousand people carried away from Judah as captives to the victorious Chaldeans His was a defeated, dispirited people and great was their humiliation

Rev. Althouse

He was also alien in a strange land far, far from his promised homeland. The way of life in Chaldea was radically different from anything he had known in little Judah

From priest to prophet

He was also a man without a job In Judah, Ezekiel had been a priest As a priest, his function had been to serve in the great Temple of Jerusalem. Now, however, there was no longer a Temple A priest without a temple was a man without a job

We do not know what Ezekiel did for the first five years of exile in Chaldea, but at the end of that period this ex-priest received a call by God to serve as a prophet to the Jewish people in exile by the river Chebar, an important navigational and irrigation canal of Babylonia Somewhere along its banks north of the capitol, Babylon, he began an entirely different life.

We must not underestimate the difficulty of transition between the roles of priest and prophet. There was a considerable difference. The priest attained his office by being born into a priestly family, while the prophet was selected by God from among any class or family The priest served principally at the Temple, while the prophet took his message wherever God directed. The main task of the priest was to conduct the rituals of worship and sacrifice in the Temple; for the prophet the task was to bring the people a proclamation of God's message. The priest was normally recognized by the people as the authoritative religious leader, whereas the prophet was frequently rejected by most. As a priest, Ezekiel had been concerned primarily with rituals and laws; as a prophet, however, he was called to focus on the spiritual condition and ethics of the people.

A "New ball game"

Do you see the enormity of the change to which Ezekiel was being called by God? Doubtless, he would have preferred to remain a priest and do the job he knew best, but times had changed and he was being challenged to change along with them

Let us also realize that there were no guarantees with this challenge. There is no assurance of success. His people did not listen to the prophecies of Jeremiah They had been a rebellious people and there was no assurance that they would change. To make this big step, Ezekiel had to have courage.

When we are confronted by "a whole new ball game," we too are called to have the courage to change

5-Acre Corn Club Champions

Three corn growers who produced the highest yields in the machine and hand divisions of the 1972 Pennslyvania 5-Acre Corn Club were honored Monday at the 57th Farm Show.

Winner of the shelled grain grain harvested class was Harold and Homer Moore, Farnklin RD3, Venango County, with an average yield of 226 bushels per acre

Richard Luckenbaugh, Spring Grove RD1, York County, and Raymond Wingert, Chambersburg RD1, Franklin County, were declared co-champions in the ear corn harvested class with 183 and 182 bushels per acre respectively.

There were 136 corn growers entered in the 1972 contest, reports Joseph H. McGahen, Penn State Extension agronomist. Sponsor of the program is the Cooperative Extension Service.

Harold and Homer Moore established a plant population of 18,167 plants per acre. Corn was planted on May 11 and harvested on October 15.

They applied 215 pounds of nitrogen, 160 pounds of phosphorus, 80 pounds of potassium, and 15 tons of manure per acre. Row width was 30 inches.

Additionally, the Moores were also declared champions of a national 5-acre contest conducted by Muncy-Chief Hybrids, Muncy. Prizes for this accomplishment included a trophy and a merchandise certificate valued at $250

Luckenbaugh, one of the co-champions in the ear corn harvested class, planted his crop using no-till procedures. The corn was established on May 16 and harvested on November 13.

He applied 168 pounds of nitrogen, 53 pounds of phosphorus, and 18 pounds of potassium. Plant population was 23,290 per acre in rows 30 inches wide.

The other co-champion, Raymond Wingert, established a plant population of 23,510 per acre in 38-inch rows. The crop was planted on May 14 and harvested on October 10. He applied 160 pounds of nitrogen, 50 pounds of phosphorus, and 25 pounds of potassium

Second place winner in the shelled grain harvested class was Charles A Hess, Dallastown RD1, York County, with a yield of 182 bushels per acre

Buttonweed Springs Farm, Warminster RD, Bucks County, captured second place in the ear harvested division with 179 bushels per acre

Average yield for the 136 growers was 132 8 bushels per acre. Grain moisture was calculated at 28 7 percent, and plant population averaged 19,692 per acre

Corn Judging Champions

Butler and Lancaster County corn producers captured championships in corn judging competition at the 57th Farm Show

Donald J Wack, Zelienople, Butler County, was winner in the statewide 10-ear open pollinated division Daniel A Brubaker, Ephrata, Lancaster County RD1, for the second straight year, was winner in the 30-ear open pollinated category

In 10-ear hybrid dent classes, Clyde Brubaker, 2418 Harrisburg Pike, Lancaster, captured the championship in district 1 competition, and Ned McDonald, Imler, Bedford County, placed first in district 2.

In other district competition in 30-ear hybrid dent classes, Donald S Boshnaugle, of Columbia RD1, won in district 1, and Ned McDonald, Imler, won in district 2

In 4-H competition, Douglas Rohrer, 1623 Book Road, Lancaster, was winner in district 1, and David Naugle, Hooversville, Somerset County RD1, topped all competitors in district 2

Thomas Hoover, York RD12, placed first in district 1 vocational classes, and Ernest dell, Mapleton Depot, Hungdon County, topped the classes in district 2

Two Hay Champs

A pair of Lancaster County Farmers produced Pennsylvania's best hay samples in 1972 according to judges at the Pennsylvania Farm Show.

Jesse G. Balmer, Lititz RD4, exhibited the grand champion sample, while Daniel Brubaker, Ephrata RD1, showed the reserve champion.

Balmer's sample was a heat dried cutting of late alfalfa, containing 23.6 percent crude protein, 21.7 percent crude fiber and 67 percent estimated total digestible nutrients (TDN).

Brubaker's sample contained 22.6 percent crude protein, 22.5 percent crude fiber and 66 percent TDN.

Window Display Winner Shows Milk Let-Down

Upper Bucks FFA Chapter, Upper Bucks Vocational Technical School took top honors in the FFA Window Exhibit competition at the 57th Pennsylvania State Farm Show with an educational and eye catching exhibit entitled, "How Milk is Let Down."

With the use of lights they traced the stimulation of the udder nerves through the nerve system to the brain, releasing the hormone into the blood system and traveling back through the blood stream to the udder releasing the milk.

Kutztown Area FFA Chapter, Kutztown Area High School, with their exhibit entitled "Lagoons for Manure Handling," captured second place. Mifflinburg Area FFA Chapter, Mifflinburg Area High School, placed third, with an exhibit entitled "Silo Gas Kills."

Announcing: a dry "pop-up"! Can cut planting time in half!

ORTHO

Ortho Unipel STARTER SPECIAL.

A starter? As a "pop-up"? It has to be special.

It is. STARTER SPECIAL is a completely unique product. Here's why:

— Physical Uniformity. STARTER SPECIAL pellets are made to the same shape and density for maximum consistency and control in application.

— Chemical Uniformity. Each and every STARTER SPECIAL pellet has all three primary nutrients — nitrogen, phosphorus, potassium — chemically homogenized in precisely the most desirable ratio 13-34-10 The nutrients can't separate or segregate during handling as with troublesome, hard-to-regulate "dry blends."

— Double Duty Nutrients STARTER SPECIAL has both quick-acting and long-lasting nitrogen and phosphorus for thorough plant feeding. There is no urea or diammonium phosphate that might endanger the seed through liberation of free ammonia.

Of course, these features also make it highly effective as a banded starter. But, with only slight adaptation of most planters, it can be applied directly with the seed in exacting measurement for safety and maximum response.

With this kind of control, you apply much less material — only 1/3 the amount needed for banding And the reduced material handling could cut your planting time in half!

So, save time, trouble, and money at planting time. See us soon about applying STARTER SPECIAL this spring as a dry "pop-up".

Carl Brown Slated to M.C. Dairy Conference

The planning committee of the 8th Annual Southeastern Dairy Conference announced that the master of ceremonies for this year's event will be Carl A. Brown, manager of Farm Credit Services for the Production Credit Administration in Lancaster for eight years. Well known to area farmers, the Luzerne County native has completed 16 years with Farm Credit since he started with the organization in Tunkhannock.

This year's event will be staged at the Sales Barn on Route 30 east of Lancaster, beginning at 9:30 A.M. on Tuesday, February 6. Coffee and donuts will be available from 8:30 until 9:15 for early arrivals, and lunch will be served to all at noon. All dairymen and their families and interested parties are invited for an interesting and entertaining day. The program will conclude at 3:15.

FFA Mail Order Band Presents Concerts

In this era of folk, rock and other varieties of music, a "mail order band" stole the musical show this week during the 57th Pennsylvania Farm Show.

This year marked the 35th consecutive appearance of the FFA Band at the Tuesday evening show in the large arena.

The FFA Band was formed in 1938 by Dr. Henry S. Brunner, a teacher of vocational agriculture at Oley High School. Dr. Brunner continued to direct the band for the next ten years. With an increased work load as Head of the Department of Agriculture Education at the Pennsylvania State University and Director of the National FFA Band he turned his duties as director of the State FFA Band over to Dr. James W. Dunlop, who is also director of the famous Penn State Blue Band. This year was Dr. Dunlop's 25th year as director—a quarter of a century of dedicated service to helping farm youth develop and present the two concerts on Tuesday evening in the large arena and Wednesday afternoon in the Forum at the State FFA Convention.

Some of the heart warming moments come in the opening sessions of rehearsals, when fathers, who played in the State FFA band in years past, make themselves known to Dr. Dunlop.

This year's band was composed of 55 boys and 12 girls representing 26 counties and 39 school districts of our Commonwealth. Harvey A. Smith, Pennsylvania Department of Education is the Chairman and describes the band as mail order from the manner in which it is organized each year. Each applicant lists typical selections which he or she has played in his respective high school band. Some of the selections are "Festival Overture," "Shastrakovich", "Russian Christmas Music," "Reid and Troika from Lieutenant Kije Suite."

Three members from this band were nominated to represent Pennsylvania at the National FFA Convention in Kansas City, Missouri in October.

Once the members of the FFA Band arrived in Harrisburg they followed a tight schedule of practice and discipline before a concert is ready to be performed. Between noon Sunday and noon Wednesday they participated in 12 rehersals at the Camp Curtin Methodist Church. Their day began at 8:00 a.m., with breakfast and ended at 9:00 p.m. with bed check.

Area members of the band are:

Berks County - Larry Stoltzfus, Beth McDonnell, Thomas Carskadon, Alfred B. Adam, Charles A. Goss and Libby Miller; Chester County - Jeffrey Austin.

Lancaster County - Greg Landis and Joseph Metzler; Lebanon County - Craig M. Butt, Fred Baal and Douglas Martin.

York County - Doug Kelgore.

Simmental Heifer Born At Beechdale Farms

A purebred Simmental heifer calf was born on December 27, 1972, at Beechdale Farms, Bird-In-Hand. Believed to be the first such purebred born in Eastern United States of this exotic breed of Swiss dual-purpose cattle, the calf thus joins a herd of cross-blood Simmentals owned by Dr Thomas D. Conrad.

Simmental cattle are one of the oldest and most widely distributed of all breeds of cattle, numbering some 35 million throughout Europe. Noted for their size, disposition, fertility, conformation, milk performance, weaning weights, and carcass quality, the Simmental breed has attracted and excited progressive cattlemen here in the United States, particularly in western states, such as Montana, Texas and Kentucky.

Beechdale Farms' first purebred Simmental is out of a 21-month old heifer with three-quarter Simmental blood and one-fourth Hereford. Beechdale's herd is exclusively Simmental blood ranging from one-half to three-quarters with original foundation dams being, in addition to Hereford, Hereford-Shorthorn crosses, Hereford-Angus crosses, Hereford-Red Angus crosses, Angus-Charolais crosses, Guernsey and Holstein.

Conrad expects the Simmentals to sweep the nation in a few years and replace the traditional English breeds (Hereford, Shorthorn and Angus) in the market place.

Conrad, a professional consultant, claims "the economics of this new breed, if studied by open-minded cattlemen, are most convincing and encouraging."

Is your Insurance earning its keep?

Is it up to date?
Is it tailored to the needs of your farm?

AGWAY INSURANCE OFFERS YOU THE BENEFITS OF COMPLETE INSURANCE COUNSEL FROM ONE SOURCE, TAILORED TO YOUR NEEDS—PROVIDING TOTAL PROTECTION:

- Fewer payments to keep track of;
- No confusion about what's covered;
- One company to deal with when you have a claim;
- Savings, if your present protection overlaps.

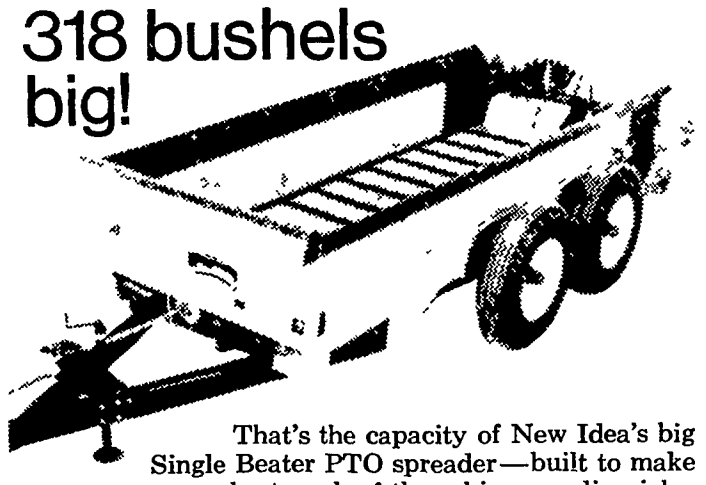
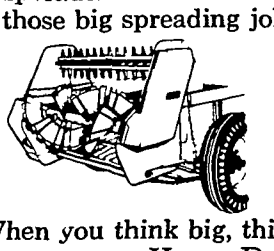
Think Big.
318 bushels big!



That's the capacity of New Idea's big Single Beater PTO spreader—built to make short work of those big spreading jobs.

Optional Upper Beater Breaks up big hunks, shreds the load for better spreading pattern... adds load-carrying capacity, as well.



2-Year Warranty on Chain. When you think big, think conveyor chain. This giant has a super Heavy Duty Chain (20,000 lbs. tensile strength) that's backed by this full 2-year warranty.

Stop in. We're thinking big on trades... right now!

Eastern Seeks Support of Legislators

Eastern Milk Producers, in its continuing efforts to protect Northeast dairy farmers, has decided to call a meeting of legislators in Washington, D.C to inform them of the disastrous effects recent government decisions are having on farmers and the consuming public alike.

John C. York, Eastern's General Manager, in announcing the action, stated that the decision to halt emergency loan funds for the area's farmers without the prospect of substantial milk price improvement will cause an unheard of economic calamity in the Northeast region of this country. The administration's recent decision to allow the importation of an additional 25 million pounds of nonfat dry milk into the U.S. market and exportation of grain will compound the depressed milk industry's problems and keep dairy farms' cost up and income down this year

Slaughterhouses will be overflowing with dairy cattle within the next several months, and consumers will be faced with an extreme milk shortage by fall if some relief is not forthcoming for milk producers The time has passed when certain interests in the Northeast can afford the luxury of being passive. Political and milk industry leaders must take firm and positive action to overcome the inequity with which we are now being faced

York said that he recently read in the newspapers where two major Northeast operating cooperatives would like to join with Eastern Milk Producers Cooperative in seeking the highest possible returns for dairymen.

"I am certainly grateful for this support because Eastern has always been willing to work with other cooperatives on projects designed to benefit dairy farmers," said York.

First, Eastern would welcome a concerted effort on the part of these two cooperatives in assisting with obtaining a much needed improvement in the Class I (fluid) price of milk, a request that Eastern made in August of 1972.

In addition, Eastern has an economic price formula which would take into consideration local costs of production and boost the income of dairymen in the Northeast regional markets in time of inflation. This formula would protect milk producers while feed prices and other costs of production are skyrocketing in the Northeast. Up until now, Eastern has been unable to gain the required support for the approval and implementation of such a formula.

Two years ago, Eastern petitioned the government to call a hearing to prevent outside milk supplies from entering the New York pool and deteriorating the price paid to farmers. With the kind of united effort suggested, Eastern feels that this could now be accomplished.

Eastern Milk Producers has also spoken out in favor of a merger of the Connecticut and Boston Regional federal milk orders, so that all producers affected by these New England Orders could share equitably in a common market. Currently, producer prices are being reblended, causing a hardship on hundreds of producers. Again, Eastern welcomes support in effectuating such a merger.

The door is open for all coperatives as well as other farm organizations to join with Eastern Milk Producers in improving the income of dairy farmers in the Northeast by supporting these and other issues which need meaningful cooperation.

Bucks County Best in Vegetable Exhibit

The Bucks County Vegetable Growers Association repeated as winners of the best county exhibit at the 57th Farm Show. This makes the eighth consecutive year that the Bucks County group has captured the honor. Chairman of the exhibit is Dominik Pellergrino, of 1981 Hansel Drive, Cornwell Heights

The best farmers display was exhibited by Joe Digirolamo, Jr., 5448 Holmsville, Cornwell Heights.

Dave Specca, Trevose, Bucks County, for the second straight year, showed the best growers collection.

John King, Nottingham, RD2, Chester County, exhibited the best white fancy mushrooms, and Robert Wood, Oxford, RD2, Chester County, showed the top white botton mushrooms.

Lancaster County Sweet Exhibit Winners

The Lancaster County Honey Producers placed first in the collective county honey exhibit at the 57th Farm Show The Lancaster County group makes their headquarters at 252 State St., Ephrata.

Hackenberg Apiaries, Lewisburg, RD3, Union County, took championships in both individual exhibit and specialty pack divisions

The best exhibit of comb honey was shown by Archie Krug, Ebensburg RD1, Cambria County. The best exhibit of extracted honey was displayed by Ronald W. Colwell, Spring Mills RD1, Centre County.

PURINA CHOWS®

1973 Meat Imports Estimated

Secretary of Agriculture Earl L. Butz announced that calendar 1973 imports of meat subject to the meat import law are estimated at 1,450 million pounds.

This amount is roughly 10 percent above estimated imports in 1972.

Public Law 88-482, enacted in August 1964, provides that if yearly imports of certain meats—primarily beef and mutton—are estimated to equal or exceed 110 percent of an adjusted base quota, the President is required to invoke a quota on imports of these meats. The adjusted base quota for 1973 is 1,046.8 million pounds. The amount of estimated imports which would trigger its imposition is 110 percent of the adjusted base quota of 1,151.4 million pounds.

The President will issue a proclamation pursuant to section 2 (c)(1) of Public Law 88-482 limiting imports of meat subject to the Act. At the same time, as Secretary of the Treasury George P. Shultz announced on Dec. 21, the President will suspend that limitation for calendar 1973. The suspension procedure is the same as that followed with Presidential proclamation 4037 of March 11, 1971, and Proclamation 4114 of March 9, 1972.

The Secretary stated that the situation will be reviewed quarterly, and should marketing conditions change substantially, contrary to present expectations, the suspension of limitations will be reconsidered.

World beef prices have remained high and competition is strong for available export supplies. Several European countries have temporarily removed or reduced their import duties on beef and veal. Also, Japanese beef import quotas have been increased sharply.

Secretary Butz reports continuing strong demand for beef in the United States. Cattle prices in 1973 are expected to average higher than 1972 levels.

WITH BUX® ONLY THE ROOTWORMS HAVE TO WORRY.

BUX Corn Rootworm Insecticide controls both resistant and non-resistant rootworms. But it also has a relatively low mammalian toxicity, and it doesn't smell bad. Let us give you the full story.

From Local Ag Teachers:

Thoughts in Passing

The article this week was prepared by Gerald Phillips, teacher of agriculture at Pequea Valley High School.

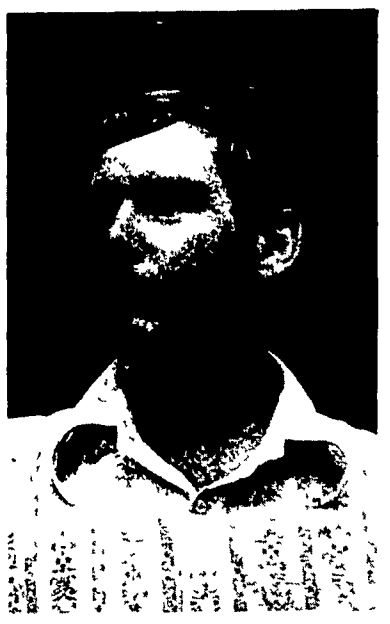
Its Up to Us!!

In the not too distant past, Lancaster County was known throughout the state, if not the entire Eastern United States, as the Garden Spot of Pennsylvania. Farm land stretched out in front of ones eyes in all directions for untold thousands of acres. The farmer in Lancaster County was looked upon with esteem and respect as a sound businessman and good citizen. He was an asset to the community. It probably wasn't too long ago that agriculturally-related businesses were the community and industry. How quickly times change.

Practically each week in any of our local newspapers we read of farms that are bought by business firms, private industries and even wealthy individuals, and are then redeveloped into community living centers, supermarkets, and the most wasteful of all parking lots. Residents in these modern villages then go about their business by raising a big stink about farm odors (no pun intended).

In one recent article a developer refered to chicken coops and pig stys. Now when was the last time any of you saw a "pig sty"? Todays modern agriculture is enabling the efficient farmer to produce and process more meat, milk, vegetables and eggs of higher quality, in less time and in less space And the odor levels are scarcely higher than before.

Perhaps some of these pollution minded urban dwellers should take a guided tour through some of our industrial plants and take notice of the smell, noise



Gerald Phillips

level, grease and grime and the accident levels and then decide which is a better place to be. If they're so anxious to become country dwellers then they should be capable of putting up with country life. Snowed in roads in the winter, no swimming pools for noisy kids in the summer and "seasonal odors"

Don't misunderstand the content of this article. Agriculture needs industry and vice versa. My point is: why locate industry and model communities on tracts of land which are best suited and most productively utilized by farming communities? Why build outward instead of upward? Why squander tillable soil when untillable land lies near by with no real productive purpose?

With improved zoning regulations, land prices might not escalate to the point where it becomes impossible to continue to farm and realize a profit. Our land tax structure is now so high that the profits barely outweigh the expenses

If you re[illegible]lifford Grube's article a short while back, read it again. He spoke of the farming situation in Bucks county whose agricultural tradition is as our own. Now its merely development after development to accomodate communities to Philadelphia. Who's to say that one day Lancaster County will not be development after development to accommodate communters to Harrisburg?

I spent four years in Bucks county at Delaware Valley College and I can wholeheartedly agree with Cliff. Farm land prices have skyrocketed to over $2,000 an acre and most of it is being bought by private firms and individuals to be left unworked till greater prices are reached and a profit is attained with no real work being done.

Our FFA Chapters are proud to be from Lancaster County. We have always represented this area very admirably at our State functions. With more and more farms dropping out of the county scene, this will undoubtedly lower the enrollment in our vocational agricultural programs. If we can't offer a stable present in agriculture to our farm youth, how are we to convince them of a promising future?

Let's keep our farmland farming and not supporting parking lot! Its up to us and only us!!!

Entomology Winners

Only three area 4-H'ers entered the 4-H entomology competition at the Pennsylvania Farm Show this week, and they won two firsts and a second in four classes.

Nancy Mays, 1212 Nissley Road, Lancaster took first prize in the first year 4-H club member catergory. Her brother, Alan, took second place in the second year category.

First prize in the third year category went to Janet Hutchison, West Grove, RD2, Chester County.

Fulton Grange Accepts Two Members

Richard Holloway, Master of Fulton Grange 66, presided at the regular meeting January 8 at Oakryn. The Junior Grange held a successful paper drive.

Membership chairman Miss Joyce Galbreath has a contest going between the men and women and asks that all applications for membership be in by the next meeting, January 22.

Degrees will be given Feb. 26 and March 12. Mr. and Mrs. LaMar Heim, former Grangers from Westmoreland County, were admitted as members at this meeting.

The Women's Activities committee reports many State Grange cookbooks being sold.

The Lecturer, Mrs. J. Stanley Stauffer Jr., will have a box with 100 things in it at each meeting this year to mark the one-hundredth anniversary of the Pennsylvania State Grange Members are to guess its contents. If guessed correctly the winner will receive it. No one guessed it at this meeting so members will guess again at next meeting as to its contents.

Gyles Brown displayed his collection of three dozen or more cigarette lighters and told where he got them. He had some unusual ones.

W. Harold Graybeal served as moderator for a round-table discussion on "Farming Today." Others on the panel were Alfred Overly, William Arrowsmith, Richard Lefever and James Huber. They noted that farms are larger and dairies are larger. They discussed the benefits that have come from artificial breeding, do-it-yourself artificial breeding, herd housing, handling milk, feeding and the trends in milk marketing and advertising

Lancaster County Pomona Grange will hold a dinner meeting January 20 at 7 p.m. at Rhoads Spanish Restaurant, Quarryville. Non-Grangers may attend the dinner and program which will include an educational presentation on "Atomic Power" as presented by a representative of Philadelphia Electric Co Jesse Wood, Richard Maule and Ralph Wanner must have reservations by January 15

The next meeting of Fulton Grange will feature a candy making demonstration by Mrs. Richard Lefever and a taffy pull Members are to bring clothing for the exhibit of Yesteryear Clothing February 12 there will be an old fashioned dessert box social.

Two Area Dealers Tour Plant Facilities

Two area Hesston-dealers recently returned from a special tour of the Hesston Corporation at Hesston, Kansas.

L Ben Wenger of Wenger Implement Inc., Quarryville, and Gary Shotzberger of Shotzberger's Equipment, Elm, joined other Pennsylvania dealers on one of the company's planes as part of a series of fly-in visits designed to acquaint its dealers firsthand with the company they represent. During their one-day visit, the dealers toured the company's main office and plant facilities, talked with top management and viewed Hesston farm equipment in the manufacturing process.

The "new settlers" are coming—
and enjoying what they find here!

The new settlers, of course, don't come in covered wagons. Now they drive station wagons, filled with kiddies and pets and furnishings and more.

But, if the transportation is different, their reasons for choosing Southern Lancaster County are much the same as the original pioneers'. They value the clean air and water, the friendliness, the room to grow in.

And many have found, to their satisfaction, that our style of banking ("the way you'd do it") fits right in.

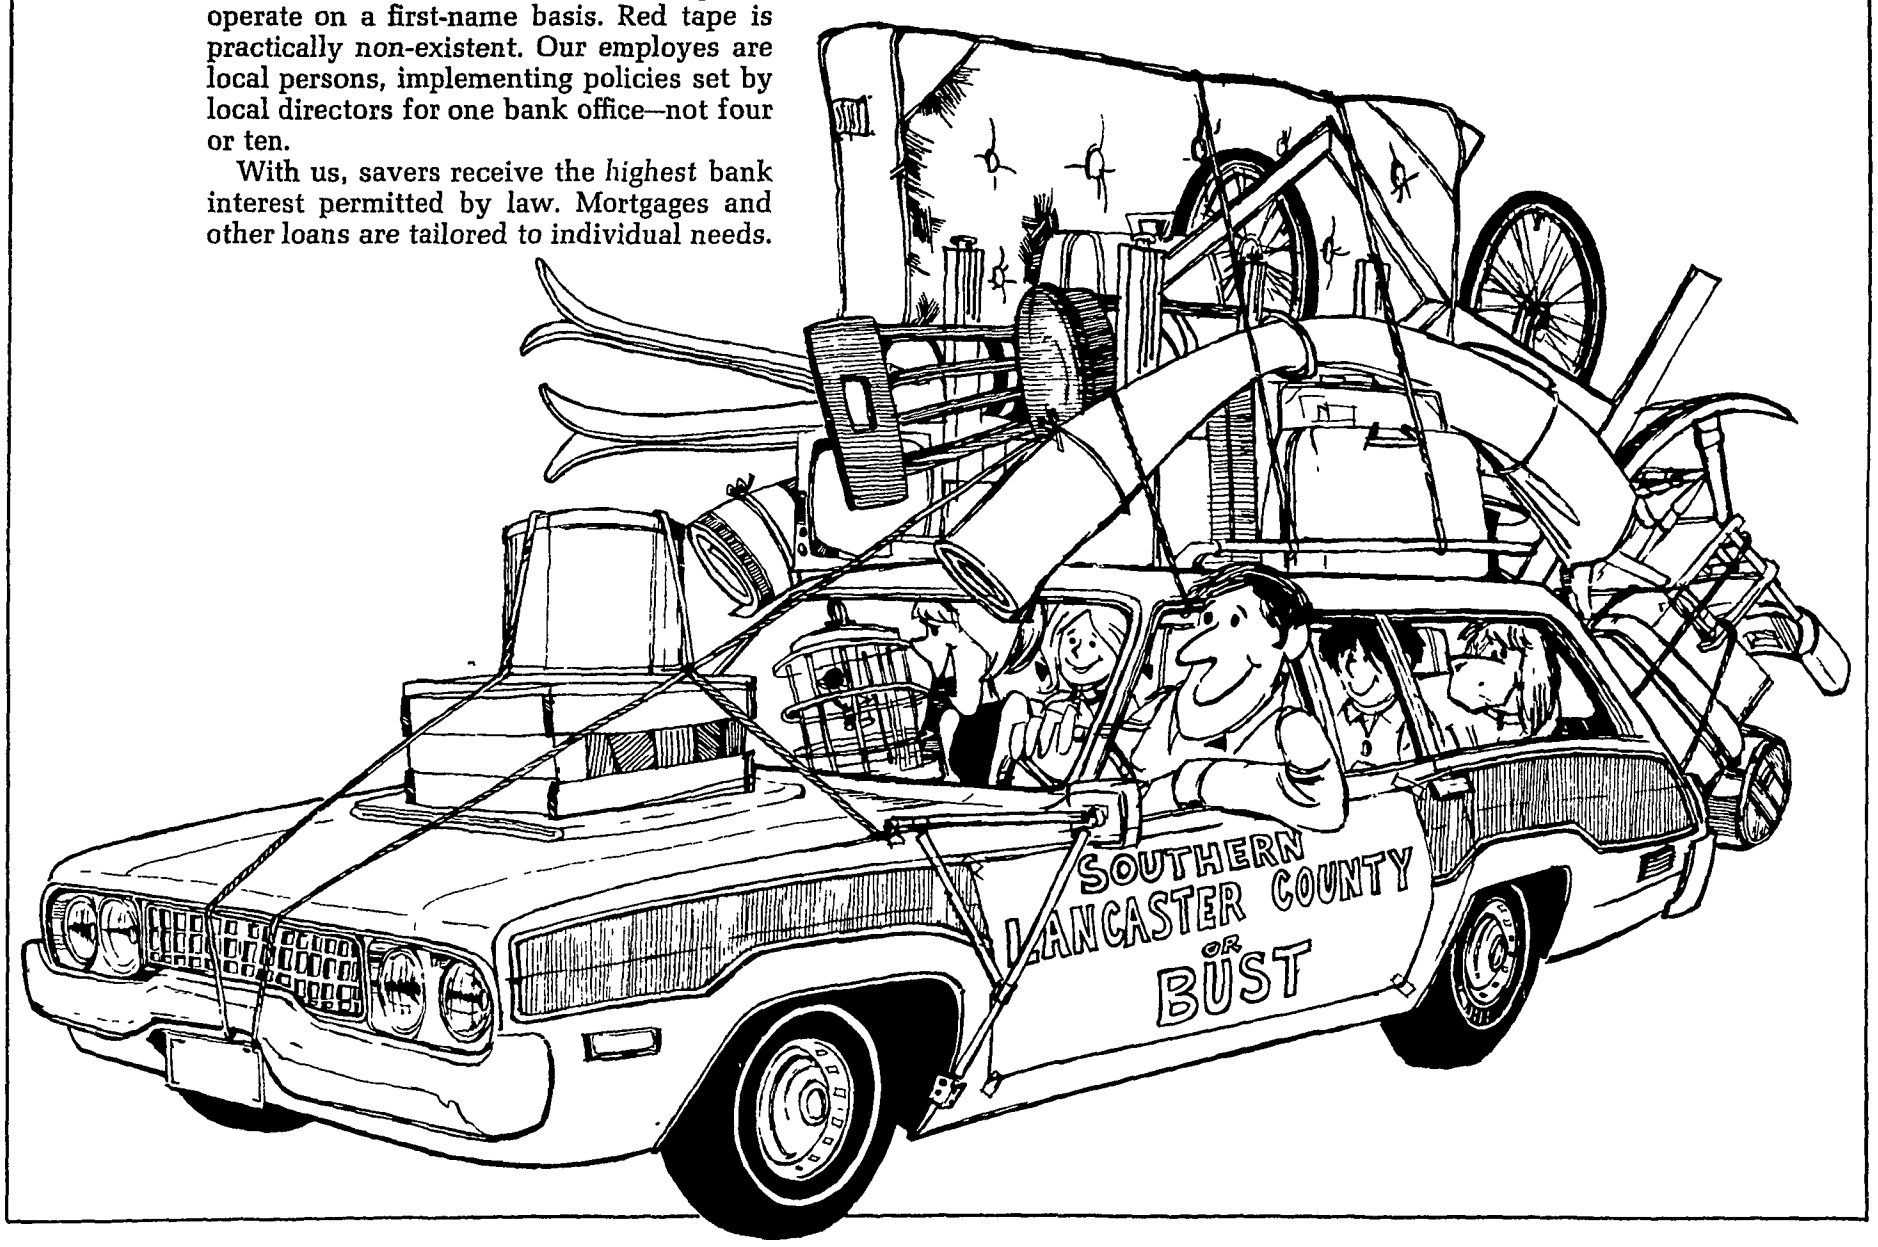
Inside our beautiful, new building, we operate on a first-name basis. Red tape is practically non-existent. Our employes are local persons, implementing policies set by local directors for one bank office—not four or ten.

With us, savers receive the *highest* bank interest permitted by law. Mortgages and other loans are tailored to individual needs.

And, when it comes to checking, it's free—free for everybody, with no minimum balance required.

Whether you're brand new to our vicinity, or practically an old-timer, you're welcome here. Because, from our genuine smiles to our accommodating service, we're a *little* part of what's nice about Southern Lancaster County.

Farmers National Bank of Quarryville
Banking the way you'd do it.
Member, Federal Deposit Insurance Corporation



McHale Blasts REAP Cutoff

Pennsylvania Agriculture Secretary Jim McHale has called for support from the State's Congressional delegation and from every one of its farmers in opposing the termination by the Nixon administration of the Rural Environmental Assistance program.

REAP and another conservation program, the $10 million Water Bank Program (WPB), were declared terminated as of Dec. 22.

McHale said in the past five years 50 percent of the farmers in Pennsylvania benefited from REAP, under which the costs of liming fields, digging drainage ditches, and more recently, building animal waste pollution facilities were shared.

When REAP was launched in 1936, noted McHale, the guiding philosophy was that it was for the public good to invest in land owned by the farmer. For every dollar the public invested, it was felt the farmer would invest more in conservation with his labor.

"Now," said McHale, "USDA in announcing the death of these programs has assumed that cost sharing benefits are not an investment for the public but mere supplementary income for farmers This is wrong."

McHale said he had contacted every Pennsylvania Congressional delegate by telegram urging support for continuance of REAP and WPB. He urged every Pennsylvania farmer and farm organization to join in the effort to save the conservation programs.

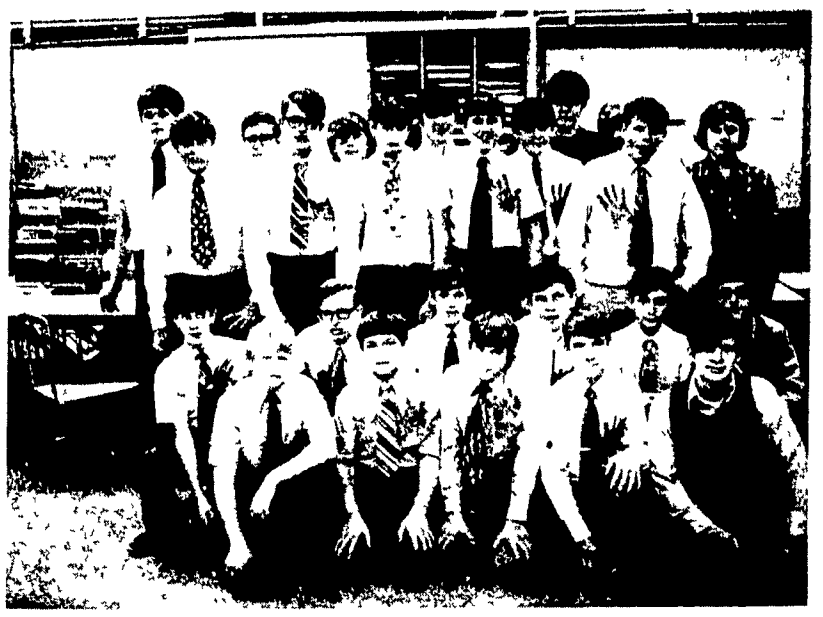
In a letter of explanation to USDA employees (Dec. 27), Butz indicated that REAP and WPB had been ended as part of the administration's fight against inflation and that record income would allow the nation's farmers to protect soil and water without government help. REAP offers landowners annual payments for part of the cost of conservation and pollution control; WPB provides contracts for protection of wetlands for migratory fowl.

Termination of the programs said McHale was an insult to the Congress, a contemptuous slap at farmers who supported Butz and Nixon and a stab in the back of the conservation effort.

"Butz's picture of an $18 billion total farm income has been challenged by his own economist - Donald Paarlberg, USDA's director of agricultural economics who now says farm income has been overestimated by $1 billion," McHale recounted.

"Further, parity percentage - the ratio of what a farmer pays to what he receives - stands in the low 70's, a level unmatched since the depression," McHale concluded.

Manor Chapter Initiates Greenhands



Recently accepted in the Manor FFA Chapter as Greenhands were: Kneeling, left to right, Tim Miller, Bob Burkholder, Bill Walton, Bob Rohrer, Dave Harnish, Ron Hunt, Greg Delp, Joe Metzler, Steven Funk, Ralph Huber, Scott Reed; standing, Bill Hess, Jeff Funk, Chris McCarty, Jeff McMullen, Frank Nadu, Doug Reixinger, Jerre Phillips, Carroll Herr, John Sabatine, Harold Nace, Larry Lawrence, Bob Frey, and Carl Thomas. Absent is Lewis Gonzalas.

Twenty-five ninth grade boys were recently initiated as Greenhands in the Manor FFA Chapter.

The Greenhands had to wear a green hand during the school day, had to have all the signatures of the FFA officers on their hand, had to wear their shirts backwards until noon, then had to roll their pants legs between the ankles and knees for the rest of the day.

Greg Landis, Chapter president, called the evening meeting to order. Each Greenhand was brought to president Landis, who asked each Greenhand some questions on the material that the Greenhands were required to know, including the colors of the FFA, the FFA motto, the five symbols on the FFA emblem, and the FFA creed.

Frey Holstein Exceeds Half-ton of Butterfat

An official production record exceeding a half ton of butterfat has been completed by Fultonway Reflector Bobbie 6547429 (VG), a Registered Holstein cow owned by J. Mowery Frey and Son, Lancaster. This is the first time that "Bobbie" has achieved the 1,000 pound butterfat production level in a single lactation. This record ranks among 3,709 similarly completed by Registered Holstein cows on official test.

The Frey Holstein's official record of production totalled 21,580 pounds of milk and 1,007 pounds of butterfat in 325 days.

Fultonway Reflector Bobbie was bred in the Frey herd. She was sired by Howacres Reflector Model 1392654 (EX).

Potato Champs

Nevin W. Reitz, Schnecksville, RD1, Lehigh County, captured the grand championship in open potato classes at the 57th Farm Show. Reitz's winning entry was an exhibit of Katahdins. He won top potato honors at the previous seven Farm Shows.

Glenn Frey, Germansville RD1, Lehigh County, exhibited the champion entry in 4-H classes.

The heaviest uniformly shaped potato was displayed by Ross Miller, Stewartstown RD3, York County.

Killer Bacteria Identified

For the second time in two years, veterinary scientists at The Pennsylvania State University have identified a new group of disease-producing organisms among the E. coli bacteria in the intestinal tract of baby pigs and calves.

The identification, the first in the United States, was made by Dr. Paul J. Glantz and associates of the Department of Veterinary Science at Penn State. Known as E. coli 0157, the organism has also been found in Canada. The bacteria produces a powerful toxin in the intestine and results in diarrhea and sudden death of young animals.

In recent years Dr. Glantz has attained an international reputation for his work in identifying certain hitherto unknown E. coli strains. In 1970 he was the first U.S. scientist to successfully use anti-serums to identify the disease-producing strain known as 0149. Over the years he perfected a technique for separating harmless E. coli organisms from pathogenic ones. The technique is called serotyping.

Identification of such organisms is carried out at the E. coli Reference Center at Penn State, the only headquarters of its type for animals in the United States. Penn State Agricultural Experiment Station scientists work in close collaboration with the Center for Disease Control in Atlanta, Ga., and with the International E. coli Center in Copenhagen, Denmark.

Dr. Glantz believes the newly-identified strain of E. coli may have been present in the U.S. for some time, due to lack of a specific serum for identifying it. By determining the specific agent responsible for the disease, research workers can now experiment with the organism to develop methods for preventing and treating it.

4-H Holstein Champ

George M. Knight III of Airville, York County, won the grand championship in junior Holstein classes with his 10-year-old cow, Woodbine Ivanhoe Fancy. George is a member of the Milk and Money 4-H Club of York County.

Reserve champion honors went to Douglas M. Seidel, of Richland, Berks County, showing Kerchenhill Miss Ella, a three-year-old. Douglas is a member of the Stauchsburg 4-H Club.

—PERSONAL MESSAGE—

"During the past 21 years we have had the pleasure of a steady growth of volume in the machinery business, thanks to our many customers over a 15-state area. We now have accumulated the finest spread of late model used farm machinery available to the public anywhere. As the spring work is growing near we feel this auction can fulfill your need of equipment. This is our personal invitation to you to attend our auction."

Sincerely,
Carl Wenger, President

PUBLIC NOTICE: DAILY WE ARE SELLING AND BUYING LIKE CRAZY. Some of these items will not be here sale day, but by the same token there will be hundreds of items coming in between now and sale day that are not listed. There are no consignments whatsoever. This machinery all belongs to Wengers'. We will be open for inspection of tractors and crawlers January 22 to 27, and until 10 A.M. sale day. All tractors will be running and you can inspect them thoroughly on these days. To save time, tractors will be sold in our normal tractor display area. There will not be running of tractors after 10:00 A.M. sale day. Plan to come early and stay late. This will be the sale of sales. If you have questions, please call me. This is the day you can buy at your prices.

Sincerely,
LLOYD J. WENGER, Sales Manager

Mrs. John Hess Elected to State Farm Women Office

Mrs. John N. Hess, Columbia RD2 (near Mountville) was elected second vice-president of the Pennsylvania Society of FarmWomen at the 54th annual convention held in the Farm Show Building Tuesday.

Mrs. Hess is a past president of the Society of Farm Women of Lancaster County and local Society 18. She has served on the State Farm Women board and on the membership committee at the State level. She was head usher for the past two State Conventions.

She is active in the choir and other phases of church work. She has spoken to numerous womens groups and demonstrated egg decorating, dried arrangements and Christmas ideas. She has conducted workshops for Girl Scouts and Future Homemakers of America groups.

Mr. Hess is a farmer and Mountville boro superintendent. Mrs. Hess assists with some physical aspects on the farm such as driving tractor and cutting tobacco. They have one son, John, who is a music major at Wesley College in Delaware.

Mrs. S. Lee Richards, McConnelsburg, Fulton County, was elected new State president. She succeeds Mrs. Virgie Duppstadt, Somerset County. Mrs. D. Wilbur Erb, Harrisburg RD1, was elected first vice-president.

Directors elected include Mrs. Marlin Hitz, Lebanon County; Mrs. Edward Darr, Somerset County; Mrs. Chester Smith, Cumberland County, and Mrs. Ralph Snyder, York County. Continuing as directors are Mrs. Robert Bender, Cambria County, and Mrs. Norman Girvin, Chester County.

Mrs. Hess was elected to serve the Pennsylvania Society of Farm Women as second vice-president at the annual convention in Harrisburg. Her farmer-husband lends his support.

Continuing as officers are Mrs. Merle Baughman, Franklin County, treasurer, and Mrs. Clair Buterbaugh, Indiana County, secretary.

About 330 delegates represented the 180 state societies including 4,017 members throughout Pennsylvania. This group adopted eight resolutions dealing with ecology, pornography, welfare, drugs, highway safety, assessment of farm land, women prisoners and bail in morals cases. Copies of these will be sent to legislators of Pennsylvania and the Federal government asking them to consider the recommendations of the Pennsylvania Farm Women when they are representing rural citizens.

More than 1,000 Farm Women including about 150 from Lancaster County attended the Monday session. The theme was a "Do It Yourself" entertainment in which skits, humorous and serious, were presented along with musical programs, satires, and demonstrations utilizing home talents.

Lancaster County presented "Parade for Safety" pointing out hazards around the home and farm. Mrs. Aaron Denlinger received a certificate for 100 percent participation in the Safety program.

Mrs. Martin Greenleaf, Oxford RD1, Lancaster County Outstanding Farm Woman of the Year, was second runner-up in the State Contest. Mrs. Paul Dennis, Gardner RD1, Adams County, was selected as Farm Women of Pennsylvania Woman of the Year. She succeeds Mrs. I. Roland Hughes, Cambria County. Mrs. Elmo Mentzer, past state president, was in charge of the Woman of the Year committee.

Mrs. Leland Bull, wife of the former secretary of Agriculture and an honorary member of the State Society, was guest of honor at the banquet Monday evening at the Penn Harris Motor Inn, attended by 618 Farm Women. Mrs. S. Lee Richards was mistress of ceremonies. Mrs. John Hess and Mrs. Aaron Denlinger served as hostesses along with representatives from eight other counties.

In the Kitchen

BAKED CHICKEN

2 broiler-fryers, cut in pieces
½ cup melted butter
¼ cup lemon juice
1 tsp. dried tarragon
1 tsp. salt
Dash pepper

Arrange chicken in shallow baking dish. Combine remaining ingredients; mix well. Brush chicken thoroughly with butter mixture. Bake in 350-degree oven one hour, or until tender, basting occasionally. Makes 6 servings.

Linda Kauffman, left, exhibited the top cow in the 4-to-5 year-old class for Holsteins at the Pennsylvania Farm Show this week. Linda is the daughter of Mr. and Mrs. Robert Kauffman, Elizabethtown R1.

Russel Kline, below, of Reinholds, displayed the top heifer calf in the junior division of Holstein competition at the Farm Show. Kline also finished second in the same class in the open division.

Christine Herr, Narvon R1, took a reserve championship in sheep competition at the Pennsylvania Farm Show. The Herrs were, as usual, well represented both at the show and in the winner's circle. In carcass lamb competition, the family captured first, third and fifth places.

Lancaster Farming Photos

Area cows took most of the top prizes in Brown Swiss competition at the Farm Show. The grand championship female, left, was shown by Mrs. Chester Raught, Buttonwood Farms, Birchrunville in Chester County. Buttonwood animals also won champion bull, senior champion female and junior and reserve junior champion female. Donald Trimble, left, showed the reserve grand champion female. Trimble is a Peach Bottom dairy farmer.

Steve Donough Scores In Sheep Competition

HARRISBURG — Steve Donough made a clean sweep of 4-H market lamb championships on Thursday at the Farm Show.

Steve is the son of Mr. and Mrs. Paul Donough, of Manheim R4. His Suffolk lambs placed first in individual and pen of three lamb classes, going on to win grand championships with both in competition with other breeds

Sheep from Lancaster County made their presence known, winning three of the four championship classes after taking first places in seven of 12 classes for individual sheep and pens of three lambs

Kenneth Brubaker, 13, a veteran winner at Farm Shows, had the reserve champion individual lamb, a Hampshire. He also placed third with a pen of three lambs.

Ken is the son of Mr. and Mrs. Clyde Brubaker, of 2418 Harrisburg Pike.

Barbara Herr showed the first place Cheviot lamb. The daughter of Dr. and Mrs. Robert Herr, of Narvon R2, Barbara also won the Cheviot pen of three class.

Her brother, Christian, then won the Dorset individual lamb competition, Ken Brubaker won the Hampshire individual lamb class, and Steve Donough, the Suffolk class.

Carol Bushong, of Columbia R2, took the Dorset pen of three class Her brother, Tim, placed second in the Hampshire pen class and was followed by Ken Brubaker and Steve Bushong, in third and fourth place.

Kathy Donough placed second in individual Shropshire judging and in the Suffolk classes Elizabeth Herr, of Narvon R2, was second, in the individual lamb class and third with her pen of three Suffolks.

Only the reserve grand championship pen of three award escaped Lancaster County, that going to Thomas Van Wagner of Dauphin County.

Placings in the 4-H lamb show were:

CHEVIOT

Individual lamb-Barbara Herr, 1st; Marlin Bollinger, Myerstown R2, 3rd:

Pen-Barbara Herr, 1st; Marlin Bollinger, 2nd:

DORSET

Individual-Christian Herr, 1st; Carol Bushong, 3rd; Donald Bollinger, Myerstown R2, 4th;

Pen-Carol Bushong, 1st; Christian Herr, 4th;

HAMPSHIRE

Kenneth Brubaker, 1st; Tim Bushong, 2nd; and Steve Bushong, 3rd;

Pen-Tim Bushong, 2nd; Ken Brubaker, 3rd; and Steve Bushong, 4th;

SHROPSHIRE

Individual-Kathy Donough, 2nd.

SUFFOLK

Individual-Steve Sonough, 1st; Elizabeth Herr, 2nd:

Penn-Steve Donough, 1st; Elizabeth Herr, 3rd.

Chester County Man Wins DHIA Award

Gerald Miller, of Atglen, RD1, Chester County, Wednesday night received the 1972 Superior Supervisor Award from the Pennsylvania Dairy Herd Improvement Association during ceremonies at the 57th Farm Show.

The award, "to honor those supervisors who perform valuable service to Commonwealth dairymen," was presented to Miller at the 102nd annual meeting of the Pennsylvania Dairymen's Association. He received $100 and an inscribed plaque.

A milk tester the past 29 years, Miller is currently supervising work in 47 large herds.

Active in district and state testing organizations, he received a Superior Achievement Award for southeastern DHIA supervisors in 1967.

Nace Grain Winner

Donald Nace, Spring Grove RD1, York County, captured seven first places in small grains judging competition at the 57th Farm Show.

Nace entries topped classes in wheat, oats, barley, buckwheat, rye, red clover and timothy.

Mrs. Herman L. Wisser, New Tripoli RD1, Lehigh County, won a first place with her exhibit of Pennoll wheat.

Michael Smith, Falls Creek, Jefferson County, exhibited the winning entry in soybean classes.

Solanco Gets BOAC Award

A bronze emblem was presented to the Solanco FFA Chapter of Quarryville for their work with the Building Our American Communities (BOAC) program at the state FFA convention Wednesday afternoon during the Farm Show.

The Grassland FFA Chapter of Garden Spot High School in New Holland was singled out for the 1972 National Chapter Silver Award.

Among the parents of FFA members to be honored were Mr. and Mrs. John Weaver of New Holland R1. As of Wednesday, the Weavers have three sons who have earned Keystone Farmer Degrees. Those sons include: Nelson in 1970; Carl in 1971; and Delmar in 1973.

The parents of three state FFA officers from the Lancaster area also were honored. An honorary Keystone degree for the fathers and citations for the mothers were presented to Mr. and Mrs. Clyde W. Martin, of East Earl R1, parents of Nelson Martin, state FFA president.

Similar awards also went to Mr. and Mrs. Titus H. Lefever, of Manheim R4, parents of Joseph Lefever, FFA eastern regional vice president; and to Mr. and Mrs. Frank M. Houck, parents of Frank Stoltzfus, Elverson R1, state vice president.

York Countain has Reserve Hereford

Bull Run Farms, Montrose RD2, Susquehanna County, exhibited the grand champion female in Hereford classes at the 57th Farm Show. The Bull Run Farms entry, BRF Miss Ryl DHN, is a junior heifer calf.

Reserve champion female was shown by James Sloat, York RD4, Miss Voga Battle, a summer yearling.

The grand champion Hereford bull MCK Command F198 was shown by Buffalo Creek Farms, Freeport RD1, Armstrong County.

Keystone Hereford Co., Montrose RD2, exhibited the reserve grand champion bull, KHC Royal DHN 2C, a junior bull.

Keystone Hereford Co was recipient of the premier breeder award.

Champion Breeding Sheep

A number of sheep breeders who won championships at previous Farm Shows continued their winning ways at the 57th Farm Show.

Hampshire

The champion ram was exhibited by Garden Heights Hampshires, of Dauphin RD1, Dauphin County. Reserve champion ewe and champion ram was shown by Marc Paden Golsmith, of Methodist Road, Greenville, Mercer County, a former Farm Show winner. Reserve champion ewe was owned by Shober Farm, of Berlin, Somerset County.

Cheviot

Repeating their previous winnings, Erdenheim Farms, of Lafayette Hill, Montgomery County, captured all championships in both ram and ewe judging competition. This marks the eighth consecutive year that they have exhibited champions.

Southdown

Peggy McCrumb, of Mars, Butler County, won the championship in ram classes. Reserve champion ram was exhibited by David Harpster, of Boalsburg, Centre County. Harpster also showed the reserve champion ewe. The campion ewe was exhibited by Teddy Van Wagner, of Dauphin, Dauphin County.

Shropshire

Micar Farm, Stewartstown, RD1, York County, exhibited the champion ram. Mr. and Mrs. Harold E. Harpster, of Boalsburg, Centre County, showed the champion ewe and reserve champion ram. Kenneth T. Moore, of Nichols RD2, N.Y., Bradford County, exhibited the reserve champion ewe.

Suffolk

The champion ram was shown by Mrs. Milton K. Morgan, of New Holland Pike, Lancaster. Champion and reserve champion ram, and reserve champion ewe were exhibited by E. Richard Eberts, of New Holland Pike, Lancaster.

Rambouillet

Kenneth T. Moore, Nichols RD2, N.Y., Bradford County, swept all championships in Rambouillet competition. He won the grand champion and reserve grand champion in both ewe and ram judging.

Corriedale

Emil Mellott and Son, Needmore, Fulton County, won three championships in Corriedale competition. Mellott entries won the ram and ewe titles as well as the reserve champion ewe. Jackie Fetterolf, of Centra Hall RD1, Centre County, captured the reserve champion ram honor.

Dorset

Eugenia Lee Harpster, Boalsburg, Centre County, won the champion ram title in Dorset competition. The champion ewe was shown by J. Thomas Van Wagner, of Dauphin RD1. Harry P. Sigler and Sons, York RD5, showed the reserve champion ram, and Dr. and Mrs. Robert D. Herr, Narvon RD2, exhibited the reserve champion ewe.

Merino

Robert E. Calvert, Spraggs RD1, Greene County, swept all championships in Merino judging. This includes champion ram and ewe and reserve champion ram and ewe.

4-H County Council Invites New Members

The Lancaster County 4-H County Council held its meeting at the Farm and Home Center. The Council is currently having a sale of peanut crunch candy.

Any 4-H'er interested in becoming a member of County Council, come to the next meeting at 7:30 p.m. January 25 at Overlook Roller Skating rink. The rink will be open for skating until 10 p.m. Bring a friend - the more the merrier!

FEED LETTER

The word's out. Some of my friendly competitors are worried about my financial future. Seems some of my letters are sure to chase business away. Rather than worry, I should think they would be rejoicing at my down fall. Anyhow their concern is gratifying and appreciated.

No earth shaking revelations this time, only a declaration of intent.

The object of these letters is to get people to think for themselves. For too long, farmers have been subjected to claims and counterclaims about the miracles they will receive by buying this feed or that. I don't believe there are any miracles in feeding livestock. Any improvements from one feed over another are measured in fractions, not hundred weights. This is not to say that improvements shouldn't be sought, but let's not get carried away. It is better to increase milk production gradually until retirement than to try for big records and fail.

Maybe you have something on your mind about feeding livestock? I'd like to hear about it.

KINDA MAKES A BODY WONDER, DON'T IT?

The Snapper Snow-Thrower. It gets you through the worst of winter.

When the snow begins to pile up or ice over, winter may not be exactly a "wonderland" for you. Not if you're the one who's got to shovel his way through it.

But now there's the Snapper Snow-Thrower. Its big 26" wide cut will get you through even the toughest ice and snow jobs. And its two-stage system throws snow up to 40 feet away.

Completely winterized with a fully-sealed chain and gear transmission. Extra large wheels offer total stability and traction, and it is properly balanced for easy handling in the most rugged conditions.

See your Snapper Snow-Thrower dealer. Then let winter do its worst. You'll be ready. SNAPPER

Homestead Notes

Pat Erwey, Editor

The Homemaker Can Save Energy, Too

Conservation - it's not a new word but it certainly has become part of everyones vocabulary in the last few years. What the homemaker needs to know about conservation has been extended to include a new area - conservation of electric energy Maybe you homemakers are thinking "what can I do about it - I don't use a lot of electricity like stores or industries?" Well, your role can be one of importance.

As a poet once put it, "little drops of water, little grains of sand make a mighty ocean and a pleasant land." While your part may seem just a little drop of water, it is the little savings that add up Cooking is an everyday task and here we can save in many ways Cooking vegetables or meats in a covered pan prevents water loss and less water can be used so food can be cooked on lower heat and in less time Use the proper size pan for the quantity of food you are cooking, then select the right size unit for that pan. If the pan covers the whole unit you get more efficiency because of better heat transfer.

Plan meals ahead and then whenever possible cook the whole meal in the oven on one heat. It will take about the same amount of heat to cook both meat and vegetables in the oven as the meat alone Vegetables cook well in the oven in covered casseroles with a small amount of water. It takes a little longer to cook them in the oven than on the top of the range but not any longer than meat and you save the use of one or two surface units.

Casserole meals are a good change and great for stretching the budget. They can be made with less expensive cuts of meat as well as poultry and fish. Don't make just one at a time, make several and freeze the extra ones. Energy is conserved when you cook all of them simultaneously and they just need heating when you are ready to serve them.

Several cakes can be baked at one time also, freezing the extra ones. The frozen ones come in handy for later use especially for unexpected guests.

Improved cooking habits aren't the only way of saving energy. How are your laundry habits? Do you run the washer for just a few clothes? Wait till you have a washer load before you wash them. You save electricity in operation of washer and dryer this way and for heating of hot water also. Most dryers have easily accessible lint filters. Keep these filters clean to cut down on drying time. It is a good habit to clean the filter after each time it is used.

Dishwashing is a necessary part of homemaking but we can conserve when doing this chore. Run the dishwasher once a day instead of after each meal especially if the family is small. It takes the same amount of water and operating time no matter if it is full or not. If you don't have a dishwasher, nix hot and cold water carefully so that you don't waste hot water. Rinsing dishes in a pan rather than running water faucets saves hot water. Leaky faucets are real culprets on wasting hot water too.

A good setting for the water heater thermostat in 140 degrees. This temperature will meet almost all needs for hot water.

Lighting is an important requirement in daily living but it is probably one of the ways electricity is wasted by many people. To avoid waste, use high wattage bulbs in lamps used for reading or sewing, but less wattage in those which are for decorative use. Light colored lamp shades reflect more light than colored ones so to get the most from the bulbs, in reading lamps use light shades As clean lamp bulbs give off more light, make lamp bulbs part of your periodic cleaning Since most of us feel more comfortable coming into a house at night where there is some light, have an automatic timer turn lights on and off instead of leaving them on all evening. When you are not going to be in a room all evening there isn't any need for the lights to be turned on.

Without being uncomfortable, there are ways to conserve electricity with your heating. Keep thermostats set at a comfortable temperature, then leave them there. If the basement, attic or garage are not heated, be sure to keep connecting doors to them closed. Old Mr. Sun can contribute to your heating if drapes are left open on a sunny day, but it is wise to keep them closed on a cold, blustery day to make the room warmer. Remember, furniture blocking registers or heat returns prevent heated air from circulating causing uncomfortable drafts.

Now that you know some ways to conserve electricity, what does it mean to the average homemaker? Believe it or not, money in your pocket; while you are using electricity wisely you are cutting down on your electric service bill. With Christmas bills starting to make their appearance, what more appropriate time to start saving money at the same time as you are saving that precious commodity "energy."

Keep Your Poinsettias for Next Season

By Sally Bair
Feature Writer

How are you going to keep that Christmas poinsettia as beautiful as the day it arrived from the florist?

If you're lucky, you may have received one of the new varieties which are exceptionally long-lasting under home conditions They have short, stiff stems in contrast to the traditional long-stemmed poinsettia, and colorful bracts (the showy red portion we call flowers) which are thick enough to withstand livingroom temperatures. This new type of poinsettia is low and compact and keeps its beauty longer.

But any poinsetta can be kept beautiful a long time according to information supplied by Arnold G Lueck, associate county extension Agent. And with a little special care on your part it is also possible to carry over your plant and have lovely blooms for next Christmas

Poinsettias are an exacting crop and require a lot of skill to produce The poinsettia you received as a gift had been well nutrured in the humid, steady, bright warmth of a greenhouse, so these conditions should be kept in mind as you care for your plant

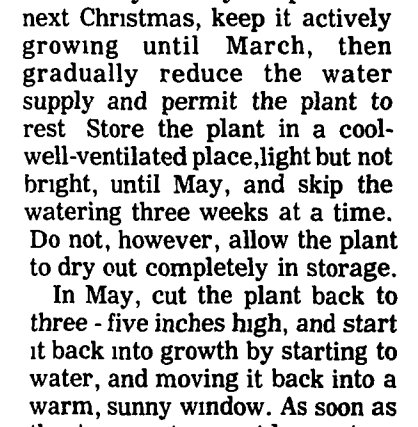
Be sure your poinsettia gets enough light and water - put it in your sunnist window and protect it from cold drafts Never let the soil dry out to the extent that the leaves wilt You may want to increase the humidity by occasionally misting the plant with a spray bottle Temperatures below 60 degrees F and above 75 degrees F have adverse effects on the poinsettia.

To carry over your plant for next Christmas, keep it actively growing until March, then gradually reduce the water supply and permit the plant to rest Store the plant in a cool-well-ventilated place,light but not bright, until May, and skip the watering three weeks at a time. Do not, however, allow the plant to dry out completely in storage.

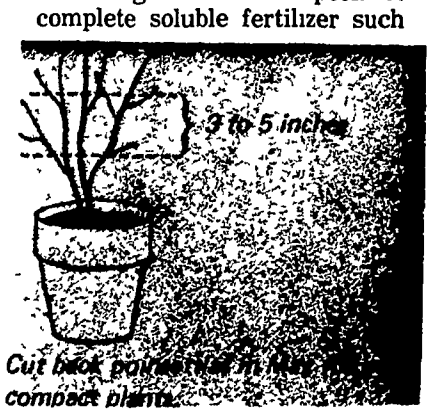
In May, cut the plant back to three - five inches high, and start it back into growth by starting to water, and moving it back into a warm, sunny window. As soon as the temperature outdoors stays above 60 degrees F at night, move it outside into light shade, and water and feed it as you do your other house plants. Pinch back each shoot once during the summer to get a well-shaped plant.

When cool nights begin in late August, bring your plant inside to a warm, sunny window. Day temperatures should be 70 to 75 degrees F and night temperatures should be no higher than 60 to 62 degrees F.

During this time, fertilize your plant every seven to ten days. Make a solution by dissolving one-half teaspoon of complete soluble fertilizer such as 15-15-15 in a quart of warm water.



With care, your poinsettias can be kept to "flower" for another season.



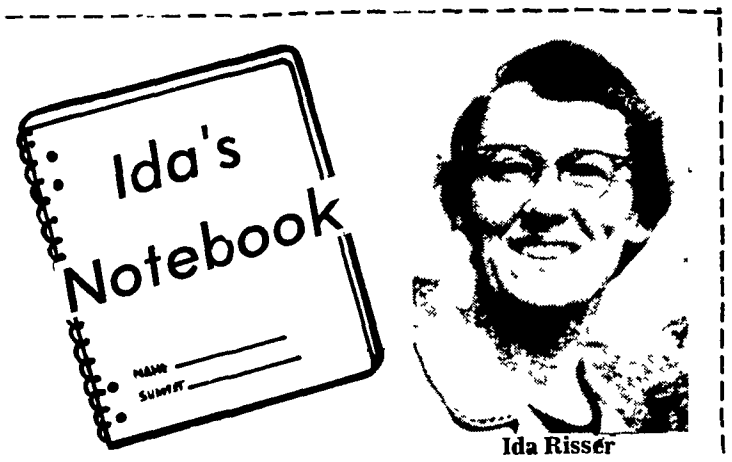
Cut back poinsettia in May for compact plants.

Poinsettias form flower buds under conditions of long nights. If your plant is to flower again by Christmas, it must be kept in an unlighted room at night. The same effect can be achieved by covering plants with a light-tight box between 5 p.m. and 8 a.m. from October 1 through Thanksgiving. After this, flower buds will be well formed and your plant will not suffer adverse effects from light.

This period of increased nights for your poinsettia is most important. If the buds are not formed under these conditions, your poinsettia may not bloom until February.

Carrying over your poinsettia requires care on your part and, despite your efforts, you may not have the same quality plant as a greenhouse. However, the extra challenge should provide extra enjoyment when you are successful.

Begin now to plan the care of your poinsettia for added dividends in beauty next Christmas.



Ida Risser

This week I husked some corn from a tiny patch we left standing in the corner of a field. All of our corn except this area was put into our big silo. For weeks I'd been urging others to husk it for our geese. But, I finally decided the way to get a job done was to do it myself.

We ate a young goose for Thanksgiving over the protests of some of the children. They are so noisy that I can't imagine having a big flock around the buildings. And now they will have corn for a few more months.

The meadow had been cleaned up after the flood but here among the corn were boards painted orange, some green, logs, rafters and even some shingles from our smokehouse. They had floated far from home the same as my begonia plants, which we found several days after the flood way down in the meadow. They were replanted and are now blooming profusely on my windowsills.

xxx

Yesterday I saw a thrush hopping around on the ground under my kitchen window. I surely hope he survives the winter and escapes the claws of our many cats.

When my father was a boy, he climbed a tree and got himself a pet crow. It learned to say three words and when excited it repeated all of them rapidly in a row.

I'm told it fell in disrepute when it began to steal small articles. In those days, they had sawdust walks which were covered by boards in the winter. In the Spring many rings, thimbles and scissors were found underneath them.

xxx

Want to hear a funny story! Well, when I was serving dessert to company there was a horrible clatter in the kitchen.

At the time I didn't admit what had happened, but I'd put my big metal cakepan in the dryer—just not enough counter space—and the dryer was bumped and starting revolving. There were cake crumbs and icing all over the place.

Thursday, January 18

1:30 p m - Farm Women Society 5, sew Cancer pads, home of Mrs. C. H. Hotenstein.

Saturday, January 20

1 30 p m - Farm Women Society 18 meeting, home of Mrs. I. Wayne Brubaker.

2 p.m. - Farm Women Society 3 meeting, home of Mrs. Clarence Stauffer.

2 p.m. - Farm Women Society 8 meeting, home of Mrs. Irwin Ginder, Mount Joy RD.

Homemakers Slate Seminar

Mrs. Larry Hershey, Atglen, RD1 and Mrs. Robert Smiley, Chester Springs, RD1, have been serving as representatives of Chester County on the Planning Committee for the second Southeast Pennsylvania Homemaker's Seminar, sponsored by Extension Service of Pennsylvania State University. The Seminar will involve women from the 13 southeast counties. The Seminar is scheduled for April 3-4 at the Hilton Inn, Lancaster. The theme of the Seminar is "The Challenges of Being a Woman—Make the Most of It."

One speaker selected to participate in the Seminar is Dr. Joyce Brothers, well known NBC Radio Network personality featured on two programs entitled "Emphasis" and "Monitor." Also featured will be Dr. Charles D. Spotts, Lancaster educator and clergyman who has been named theologian in residence at the American Church in Paris, France.

In addition, workshop sessions for smaller groups will be held on social awareness to aid homemakers and other community leaders in dealing with the rapidly changing social conditions in our present day society. Two experienced leaders, Mrs. Miriam Fountain and Dr. William Bagwell from Cheyney State College's Community Services Center, will be on hand to lead these sessions, titled "Social Awareness—You and the Larger Community". The emphasis in these sessions will be to aid participants to become more aware of, more sensitive to, and better able to deal with cultural, racial, ethnic, and other human relations problems which they face in their daily lives

Other workshops to be held during the Seminar will include, "Woman and The Law"; "Changing View and the Changing Life"; "Lady Beware;" "Metric System;" "Giving Your Child a Head Start;" "Spiritual Aspects of Being a Woman;" "Stress and Tension;" "Food Information and Misinformation".

Ladies, Have You Heard?

By Doris Thomas, Extension Home Economist

Doris Thomas

Check On Your Credit Rating

False and inaccurate reports in some credit bureau files had tragic consequences in past years. Sometimes a mistaken report led to credit being withheld, insurance cancelled and jobs denied. Now, protection against this kind of thing happening has been provided by the Fair Credit Reporting Act. That law, effective since April 1971, may help you if you are denied credit, insurance or employment because of a bad credit rating.

If a poor rating is the reason, the law says you must be given the name and address of the credit bureau that made the report. Then you may contact the credit bureau, and it must tell you anything it has in its files about you—except medical records. In addition, the bureau personnel must explain any parts of the report that you don't understand.

You may ask the credit bureau to reinvestigate anything you question, and to delete information that can't be verified. Where there is a dispute, you can add your 100 word counterclaim to the file.

In a situation where false information has already been distributed, you can ask the credit bureau to send notices of correction to all who have received a report on you in the previous six months.

Even if you've not had a problem, you might want to know what your report says. The Fair Credit Law says credit bureaus must disclose this information if you ask. If you are interested in your credit rating, check it out with a personal visit to your local credit bureau.

Economy Meals For Good Eating

I try to be undaunted by the fact that people cry over me.

After all, I know I can bring happiness. Where would many soups, chowders, dips, spreads, salads, dressings, stews, hash, roasts, casseroles, gravies, pot pies, stuffings, and relishes be without me?

Perhaps you've figured out by now that I'm an onion Just a humble little creature, that's me. I don't cost much. And there are ever so many other onions just like me in your supermarket.

Well, maybe I'm not really so humble I guess I'm even conceited I read about a survey of cooking habits in which 45 per cent of the recipes tallied used me either as a main ingredient or for the wonderful flavor and zing I impart to other foods.

I can't resist describing my magnificent appearance. I am firm and dry, with a small neck. I'm covered with a papery outer scales and am reasonably free of green sunburn spots and other blemishes. When you buy my brothers, make sure they have my excellent qualities.

But I'm still bothered by seeing people weep over me. If only they would learn to minimize tears by holding me under cold running water when they peel me!

You and your guests will love me in **Elegant Stuffed Onions**, a savory dish that's perfect for the company-special dinner.

6 large mild onions
¼ cup butter or margarine
1 cup ripe olives
1 cup soft bread crumbs
½ cup shredded Cheddar cheese
2 tablespoons minced parsley
½ teaspoon salt
¼ teaspoon poultry seasoning
⅛ teaspoon sage
Dash of pepper
Paprika

To prepare: Peel onions, removing thin outer layer only Slice off top of onions, making them as even in height as possible Cover with boiling, salted water, simmer 30 minutes, or just under tender Drain and cool Chop onion tops to make 1-3 cup finely chopped onion, saute in butter until golden Cut olives, bread crumbs, cheese, parsley, salt, poultry seasoning, sage and pepper, toss lightly. Scoop out center portion of onions (save, chop and add to creamed peas for another meal, if desired) Do not cut through bottom of onion "shells" Fill with olive stuffing, sprinkle with paprika. Bake, covered, in moderate oven (350), for 20 minutes Uncover and bake 10 minutes longer Serve this delicacy piping hot.

Butter Use Statistics Tabulated

Butter still enjoys a certain prestige value in the public mind despite the drop in per capita consumption over the years.

This is the conclusion to be drawn from a recent nationwide consumer survey conducted on behalf of the United Dairy Industry Association (UDIA) by Market Facts, Inc., an impartial polling organization.

Persons included in the survey sample were asked to rate the statement : "When people have company they're more apt to serve butter than margarine" - on a six-point scale ranging from "definitely agree" to "definitely disagree." Nearly two-thirds agreed Actual ratings were as follows:

Definitely agree, 30 percent; moderately agree, 18; slightly agree, 15; slightly disagree, 10; moderately disagree, 7, definitely disagree, 18; no answer, two per cent.

Another interesting statistic from the study is that nearly one-fourth of those responding said they were using more butter today than they did a year or two ago

"This would seem to indicate," says Dr Jerry Quackenbush, UDIA's director of Marketing and Economic Research, "that a strong promotional program for butter, perhaps tied at least partially to its prestige value, could move a lot more people into this category."

Actual ratings on the statement - "I'm using more butter today than I did a year or two ago" were as follows:

Definitely agree, 10 percent, moderately agree, 6; slightly agree, 7, slightly disagree, 10; moderately disagree, 10, definitely disagree, 55, no answer, two percent.

"The fact that 75 percent disagree would seem to indicate a further decline in the per capita consumption of butter which stood at only five pounds in 1971 compared with nearly 11 pounds 20 years earlier," says Dr. Quackenbush. "However, with nearly one-fourth of the people using more butter, the prospects seem bright for reducing the rate of decline and possibly even stabilizing or increasing the per capita consumption rate."

These are only two of a large number of consumer attitudes toward dairy products and the dairy industry measured in the survey which involved a nationwide consumer panel of 3,500 people, male and female, 13 years of age and older. While the results accurately assess current consumer attitudes, the study will be repeated on a yearly basis in order to identify trends and to provide information upon which the dairy industry can confidently design its educational and advertising programs

The Marketing and Economic Research Division of UDIA is engaged in a number of research projects on behalf of the dairy industry and the UDIA family which includes the National Dairy Council, the American Dairy Association, and Dairy Research, Inc. In January 1972, the marketing research activities previously performed by NDC, ADA and DRINC were consolidated in UDIA.

Homemaker Degrees Presented During Convention Ceremonies

"Our Future—Let's Get It Together" was the theme of the Annual Winter meeting of the Pennsylvania Future Homemakers of America meeting in Harrisburg this week.

Presiding at the convention was Miss Andrea Sakse, Carbon County, State FHA president. Greetings were brought to the Convention by Dr Harry K Gerlach, deputy commissioner of basic education from the Pennsylvania Department of Education

One of the highlights of the Winter Convention of the Future Homemakers of America is the awarding to the State Homemaker Degrees. This award is presented to deserving girls enrolled in the Future Homemakers Course in high schools.

Area winners of the coveted State Homemakers Degree and the Chapter they represent include

Lancaster County

Rachel Diffenderfer, Manheim RD3, Manheim Central; Carol Hess, 16 Penn Grant Road, Willow Street, Penn Manor; Carol Knight, Lancaster RD6, Penn Manor, Cathy Martin, West Willow, Penn Manor; Jane McMichael, Lancaster RD6, Penn Manor, Tina Mummau, Manheim RD2, Manheim Central; Suzanne Shearer, Mount Joy RD2, Manheim Central; Dawn Siver, 500 Capri Road, Lancaster, Penn Manor, and Karen Stehman, Conestoga RD2, Penn Manor.

Berks County

Linda Gabel, Honeybrook RD2, Twin Valley; Karen Gracely, Mertztown, Brandywine Heights; Christine Kline, Alburtis, Brandywine Heights; Carol McGowan and Cynthia Picton, Birdsboro RD1, Twin Valley; Roxanne Reinhold, Shillington, Governor Mifflin, Alice Romig and Debra Whitehead, Elverson RD1, Twin Valley, Betty Stoltzfus, Elverson RD2, Twin Valley.

Lebanon County

Linda Brubaker, Myerstown RD2, Dawn Hauer, Myerstown RD3, Cynthia Horst, Newmanstown RD1, Sheila Peiffer, Myerstown RD1; Lyndelle Shuey, Myerstown RD3; Jo Ann Smith, Myerstown RD2, and Sharon Ziegler, Myerstown RD2, all representing Elco School.

York County

Linda-Anne Boyd, Red Lion RD1; Martha Harrington, Delta Stoke RD2; Beatrice Sweitzer, Red Lion RD2, and Glenda Waltemeyer, Red Lion RD1, all from the Red Lion School.

Bird Movement Permission

The U S Department of Agriculture announced changes in its quarantine regulations which will allow owners of caged pet birds to move them from areas under Federal quarantine for poultry disease such as exotic Newcastle

The change will alleviate hardships experienced by traveling pet bird owners because of quarantines imposed in southern California and Puerto Rico by USDA's Animal and Plant Health Inspection Service (APHIS) to halt the spread of exotic Newcastle disease of poultry and other birds

APHIS officials explained that the changes will permit a bird owner to transport two caged pet birds out of a quarantine area. In order to transport the birds, the owner has to meet two requirements

- Present a notarized statement to quarantine authorities that the birds have been in the owner's possession for at least 90 days, that the birds are healthy, and they have not been in contact with poultry or other birds during that period

- Keep the birds in isolation for 30 days after they are moved and make them available for inspection by State or Federal authorities

The owners will be given the name and address of the appropriate Federal or State inspector in his State of destination when he presents the notarized statement to quarantine officials

An area still under quarantine in southern California because of exotic Newcastle disease covers about 1,450 square miles in Ventura, San Bernardino and Riverside counties. In addition, the entire Commonwealth of Puerto Rico is under quarantine

However, APHIS officials are advising through-travelers with pet birds to still avoid these quarantined areas The reason for the caution, they explained, is that the 30-day isolation period is required for all pet birds leaving the quarantine area Unless the traveler plans to remain at his destination for at least 30 days he would be wise to leave his pet at home or stay out of the quarantine area, said APHIS officials

The regulation change was proposed on Oct 30 with a 20-day period for comments. Only four letters - all opposed to relaxing the restrictions - were received However, USDA found there was sufficient justification for implementing the changes despite these comments. The amendment to the regulations took effect upon publication in the Federal Register, scheduled for Dec 30

Society 1

Farm Women Society 1, held its recent meeting at the home of Mrs Henry Shreiner, Lititz RD2 Devotions were led by Miss Mildred Shreiner.

New officers installed were: Mrs Paul Kurtz, president; Mrs. Noah Kreider, vice-president; Mrs Willis Bucher, recording secretary, Mrs. Elmer Hershey, corresponding secretary; Mrs Franklin Weber, treasurer, Mrs. Daniel Brubaker, song leader and Mrs. J. Clayton Sangrey, news reporter.

The following delegates from Society 1 attended the State Farm Convention: Mrs Paul Kurtz, Mrs. Elmer Hershey and Mrs Noah Kreider.

The Society's Mother and Daughter program has been changed to Friday, May 11 at the Brunnerville Fire Hall.

Guest speaker was Mrs. Thomas Erb, Lancaster, of the Children's Bureau.

Two Promoted at Auto Auction

The Manheim Auto Auction has announced the appointment of Martin J. Start as auction manager and Clarence H. Witman as assistant auction manager. The appointments were announced by Edward G. Reese, general manager of the Pennsylvania auction.

Start, who joined the Manheim Auction in February of 1970, will immediately assume responsibility for the overall operation of the auction. Start, who has been assistant general manager for the past two years, will be in charge of personnel, supervision and managements for private fleet and leased automobiles.

Witman, known as "Whitey" in auction circles, will assist Start in the daily operation of the five-lane auto auction. Witman joined the Manheim Auction in April of 1968 and has been operations manager for the past year.

Reese stated that with the new appointments he will assume responsibility for drafting policy and procedural recommendations for the Manheim Auto Auction, as well as the other ten auctions operated by Manheim Services Corporation

Date Listed for State Calf Sale Consignments

The Holstein State Calf Sale will be held March 30 at the Farm Show Building in Harrisburg.

Calves born July 1, 1972 through October 31, 1972 and a few born January 1 to January 15, 1973, sired by popular, proven sires are desired for the sale. Dams should be classified GP (Good Plus) or better from dams with official DHIA records at two years of age of 13,000 pounds of milk, 15,000 pounds of milk as a three-year-old, or 16,000 pounds of milk as a four-year-old or older

Anyone interested or having calves to be consigned to this sale should respond by January 18 to the County sales representatives, Jay Landis, 872-8818, or Nathan Stoltzfus, 442-4291.

Ice Capades Performance Promises Family Entertainment

Ice Capades, 1973, in its Big 33rd edition filled with new faces and fresh ideas, will open at Hersheypark Arena for 16 performances from February 8 to February 18, except for Monday, February 12.

Headlining this year's skating cast and making their professional debut are Jo Jo Starbuck and Ken Shelly, three times U.S. National Pair champions and fourth place finishers in the 1972 Winter Olympics Pair competition.

Both Starbuck and Shelley perform a featured solo number in addition to their two brilliant pair skating exhibitions. Shelley is also the 1972 U. S. National Singles Men champion-only the second man in ice skating history to hold two titles in the same year. His captivating, show-stopping performance to "Fiddler On The Roof" is one of the greatest solos in ice show history.

And Jo Jo Starbuck is the lastest "Sweetheart On Ice" if there ever was one. The 20 year-old pert, blue-eyed blond will celebrate her 21st birthday during this year's Hersheypark Arena Ice Capades run—and you'll never guess what day—February 14, Valentine's Day. Certainly a fitting day of birth for Miss Starbuck.

But Starbuck and Shelly are only the beginning. The show opens with a lavish production number entitled, "'S Wonderful," saluting George and Ira Gershwin, and introducing the lovely new Ice Capades star Adelle Boucher, as well as the adagio team of Peter Gordon and Barbara Wilson.

Other super-production numbers on tap for this year's show include, "Lidsville," a kiddie number full of weird and wonderful hats featuring acrobatic-skater David Sadleir; "Celebration," capturing the emotional intensity of a deep-South tent revival; "Atlantis," starring Japanese skater Sashi Kuchiki moving with skates on fire to the musical score from "Shaft;" "Sentimental Journey," featuring the Frantic 40's, the Fabulous 50's, and the Swinging 60's, and finally, "Say It With Music," a salute to the sounds of the Big Band era with a special tribute to Louis Armstrong.

For the best in Ice show comedy, there's the ageless Freddie Trenkler, the team of Hans and Pepe, the badminton-on-ice antics of the incomparable Hugh Forgie and his partner Shirley Marie, and Ruppert's Bears, who seem to be kissing somebody every time they turn around.

Returning with Ice Capades 1973 is the fascinating Italian skater Anna Galmarini, who has a style unmistakably all her own and more exciting each time you see it.

Add to all of this an original musical score that takes a backseat to none and you have what makes for a complete family entertainment evening.

Smiling is easy for Jo Jo Starbuck, U.S. National Pair Champion, as she gets a "big lift" from the happy faces of the male members of the fabulous Ice Capades Corps de Ballet when the latest edition opens February 8 at the Hersheypark Arena for 10 evenings and six matinees through February 18, except February 12.

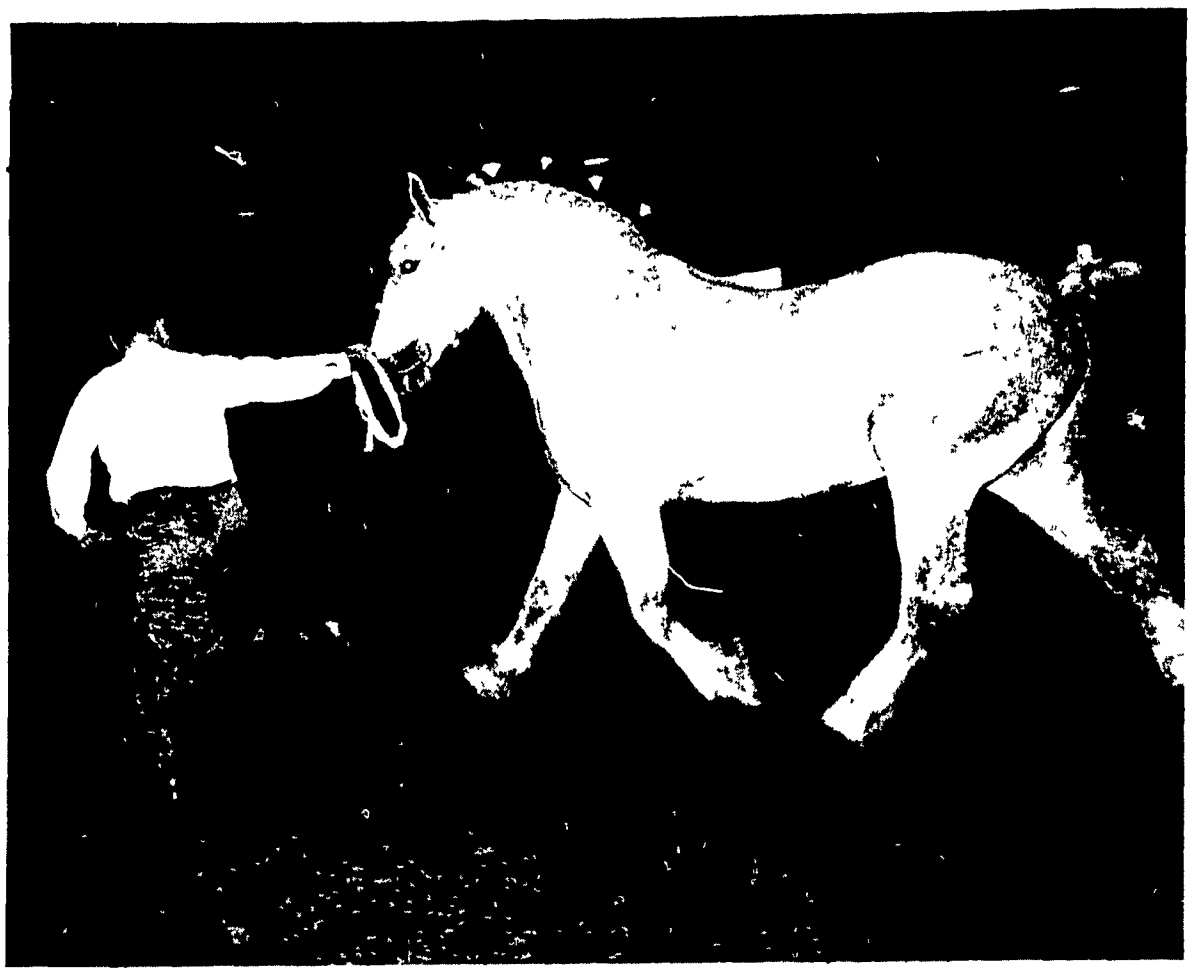
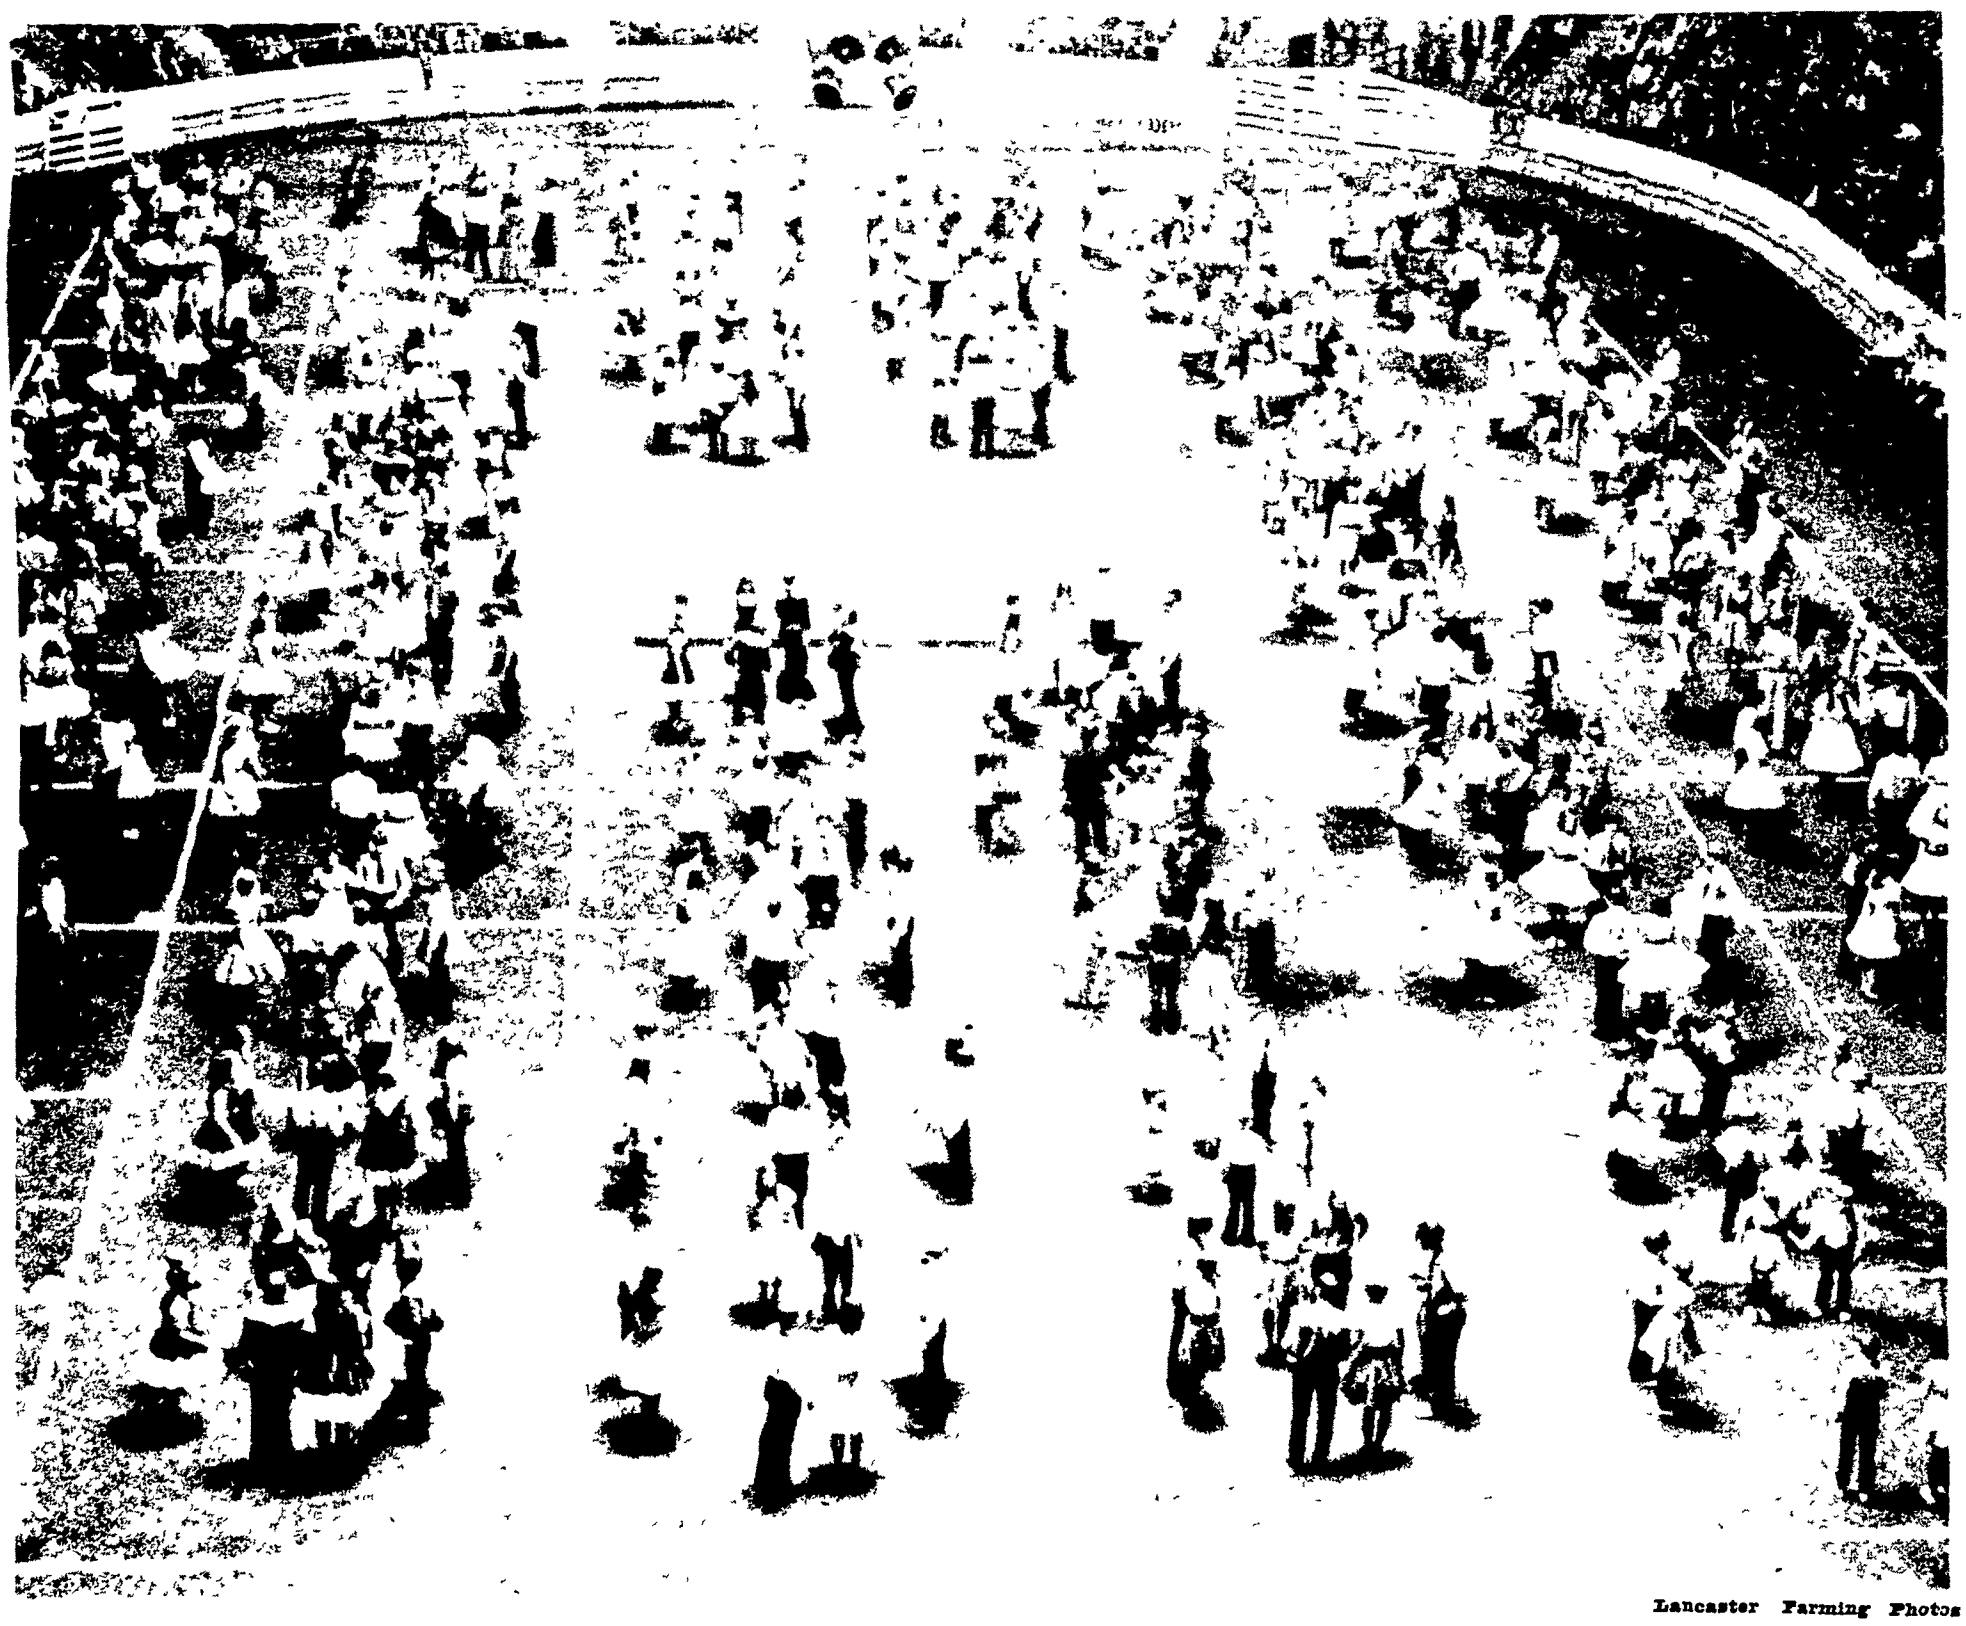
Lancaster Farming Photos

C. Edward Graybill, Lititz, won a second prize for this impressive display of live bees and honey products at the Farm Show.



One audience favorite at the Pennsylvania Farm Show is the keen competition for top prizes among the owners of the powerful draft horses. Built for power, not speed, this galloping Belgian is an awesome sight.



Lancaster Farming Photos

"Swing your partner . . ." was the call on Tuesday night as square dancers from all over the state competed for top honors in the Pennsylvania Farm Show Arena.

Lancaster Farming Photo

Mrs. Milton K. Morgan, 1916 New Holland Pike, Lancaster, showed the champion Suffolk ram lamb in sheep competition at the Pennsylvania Farm Show. Her outstanding animal then went on to be named champion ram for the breed.

Herrs Take First In Carcass Lambs

The Dr Robert Herr family, Narvon R1, proved their expertise at raising sheep this week at the Farm Show's carcass lamb competition Their lamb carcasses took three of the first five places.

The live judging had placed the Herr lambs second and fifth But in the all-important carcass inspection, these same lambs proved to be even better as meat animals than they had appeared to the judge as live animals

When judged as hanging meat, the Herr lambs took first, third and fourth places. They will be sold today prior to the 4-H market lamb sale in the Large Arena

Lancaster Farming Photo

A first prize in entomology went to Nancy Mays, 1212 Nissley Rd., Lancaster, for this attractive insect display at the Pennsylvania Farm Show.

Eastern Region Star Farmer

(Continued From Page 1)

even has been known to do a little writing.

But paramount to his achievement as Eastern Regional Star Farmer is his work with the Penn Manor FFA Chapter and his farming career at home with his family. Primarily a dairy enterprise-based home farm, the Landis' work the long, hard hours of all dairy farmers and know the value and comforts of working together. Greg lives on a 120-acre dairy farm with his parents and two brothers, William, 19, and Bruce, 14.

Greg served as Chapter reporter for the Manor junior FFA Chapter when he was a freshman. During his freshman year he raised two dairy animals for his projects. He received the FFA Greenhand degree and was a member of the Penn Manor Frosh wrestling team.

In his sophomore year, Greg was assistant Chapter secretary and served on the Chapter's yearbook, radio and guest list committees. He appeared on WGAL-TV where he helped to present an explanation of the FFA emblem and FFA in general. His projects for that year were four dairy animals and six acres of corn. He received the Chapter Farming award and Chapter Dairy award. He was also a member of the high school band and wrestling team.

In his Junior year, Greg received the Red Rose degree as well as being selected as Manor Chapter's Star Red Rose Farmer. He was elected to the office of treasurer and served on the Chapter's budget, yearbook, guest list, and orange sales committees. His projects consisted of six dairy animals and 12 acres of corn. He was a member of the high school band, junior varsity cross-country and wrestling teams and served as a sports editor to the school newspaper. He was elected as president of the Lancaster County FFA and served as a delegate to the Pennsylvania State FFA mid-winter convention.

As a senior, Greg was second runner-up in the Lancaster County Star Red Rose Farmer contest and was elected as president of the Manor FFA Chapter. His projects have been expanded and now include 10 dairy animals, six acres of corn and five acres of alfalfa. In addition to this, Greg is a member of the band, varsity cross-country and wrestling teams and is on the school newspaper staff.

He has been in the Pennsylvania State FFA Band at four State FFA conventions and has been awarded the State FFA Band award, as well as being renominated for National FFA band.

Greg has attended many FFA banquets as well as the Lancaster County Leadership Training Conference, National FFA Project Up-Date, and the National FFA Convention held in Kansas City.

Plans for Greg after graduation include possibly running for a State FFA office, and going into partnership with his father on the home farm.

The Manor FFA advisor is James Hilton. Other vo-ag instructors at Penn Manor are August Birchler and Michael Burton.

Area Brown Swiss Tops

HARRISBURG—Herds from Lancaster and Chester counties dominated judging of Brown Swiss dairy cows at the Farm Shc v Wednesday.

Donsdell Farm, Peach Bottom R2, owned by Donald Trimble, and Leon Kreider, showed the reserve grand champion Brown Swiss and placed first in two breeding classes.

J. Robert Witmer, daughter Judy and son Robert, showed Brown Swiss that placed first in three classes and won the junior get-of-sire award.

Donsdell and Witmer then combined their winning cows to take first place award for the best county herd.

The grand champion Brown Swiss was shown by Buttonwood Farm of Chester County.

Trimble and Kreider placed first with their five-year old cow which was then named reserve grand champion. Their Donsdell Farm cows also won the open get-of-sire and produce of dam classes and finished second in the dairy herd class.

Trimble also placed second in class with a three-year old cow, and third with a two-year old.

Witmer cows won first place ribbons in classes for a heifer calf, and junior yearling heifer, and earned second place with a senior yearling heifer and a four-year old cow. Brown Swiss shown by Witmer were third in the open get-of-sire class.

Robert Witmer took first with his junior yearling heifer in the junior division.

Milton Hoffman, left, congratulates Homer, center, and Harold Moore, Venango County, for winning Muncy Chief's state and national one-acre corn contest for 1972. The Moore's produced an excellent 226 bushels per acre, using a Muncy Chief hybrid. Hoffman is a representative of the seed company.

Baby Beef

(Continued From Page 1)

Mr. and Mrs. Paul Good, Lititz R2.

The champion crossbred steer, finsishing one place ahead of Linda Good's animal, was shown by 11-year old John Holloway, son of Mr. and Mrs. William C. Holloway of West Chester, Chester County.

Lancaster County steers finishing in the top three places of their weight class were:

HEREFORD

Lightweight — Ann Martin, Narvon R1, 3rd;

Medium — James Greider, Columbia R2, 3rd,

Light-heavy — Judy Zimmerman, 1st;

ANGUS

Light — Donald Dorwart, 1st;

Medium — Linda Martin, Narvon R1, 3rd.

CROSSBRED

Light — Sarah Lynn Brubaker, 2418 Harrisburg Pike, 2nd;

Light-Heavy — Nancy Herr, 840 Penn Grant Rd., 3rd;

Heavy — Linda Good, Lititz R2, 2nd; Susan Herr, 840 Penn Grant Rd., 3rd.

Donnie Dorwart, Quarryville R2, who showed the state grand champion at last year's Farm Show, won first place with a light weight Angus.

The 4-H steers will all be sold today at a sale in the Large Arena of the Farm Show building, starting at 1 p.m

In judging of county groups of steers, Lancaster County showed the winning crossbred trio with steers owned by Linda Good, Susan Herr and Nancy Wenger, of Stevens R1.

Cumberland County showed the first place Angus trio and Dauphin County the winning Hereford trio, with the champion trio awarded to the Cumberland Angus.

It was the first Farm Show in which all shorthorn steers were judged together in a class with crossbreeds.

Join 4-H Tractor Club

Boys interested in joining the 4-H Tractor Maintenance Club are invited to the first meeting of the Northern Area Club at 7:30 p.m. Monday, January 15 at the Farmersville Equipment Company, Farmersville.

If you or any of your friends are interested in tractors and machinery and you are between the ages of eight and 19, you qualify for membership. Any 14 or 15 year olds who are interested in certification under the "Hazardous Occupation Law" should also attend.

The series of seven or eight meetings will feature demonstrations, films, trouble shooting and actual work on machinery. Safe operation of equipment will be stressed. Awards will be made for outstanding project work

Leaders for the Northern Area Club are John Zimmerman, David Zimmerman and Charles Hackman.

Reists Dominate Tobacco Show

Of 108 entries in the tobacco contest at the Pennsylvania Farm Show, 107 of the samples came from Lancaster County. York was the only other county represented in the show.

The grand champion wrapper tobacco belonged to Arthur E. Reist, of 1050 Eden Road. Brother Douglas, had the grand champion filler sample

Arthur also took first in 4-H wrapper class, with his twin brother, Alfred, the filler tobacco champion in 4-H competition.

The FFA tobacco awards went to Robert Burkholder, of Washington Boro, who was first in the wrapper class. Kevin Rohrer, of Manheim R2, was first in FFA filler tobacco judging.

The Reists made it family day at the Farm Show, with Linn L. Reist, of 980 Eden Road, winning the long wrapper class. Marian Reist, of 1050 Eden Road was second, with brothers, Doug, Arthur and Alred placing behind her entry in that order.

Ray A. Brubaker, of Rohrerstown Road, Lancaster, was first with his short wrapper tobacco and he was followed by four Reists in this order, Art, Doug, Alfred, and Marian.

Doug Reist took the long filler tobacco class in the open show, followed in the placings by Art, Marian, and Alfred. In fifth place was Roy Rohrer, of Strasburg R1.

Moving to short fillers, Doug Reist was again first, Marian second, and Walter Dellinger, of Wrightsville, in third. Robert Burkholder placed fourth and Alfred Reist, fifth.

Donald Nissley of New Providence R1, placed first in the long binder class, with his brother, Larry, of Holtwood R1, in second. Gregory Mann, of Lancaster R2, was third, Doug Reist fourth and Roy M Rohrer, fifth.

However, Rohrer bounced back and captured first place in the short binder class, with Witmer J Rohrer in second. Both are from Strasburg R1.

Third place in the short binder class went to Michael Rohrer, of Strasburg R1. Richard Burkholder of Washington Boro, was fourth and Lloyd Esbenshade, Manheim R1, fifth.

Art Reist took first in 4-H wrappers and Alfred Reist second. They were followed by Jay Bleacher, of Conestoga R2, in third, Edward Nissley of Manheim R4, in fourth and Kerry Boyd, of Ephrata R1, in fifth.

The 4-H filler class again saw the Reist twins on top, with Alfred first this time, Art in second. Jay Bleacher was third, Ed Nissley, fourth and Kerry Boyd, fifth.

In second place behind Burkholder in the FFA classes was Fred Lefever, of Quarryville R1 Glenn Ruhl, of Manheim R4 was third and Robert Reifsnyder of Blue Ball, fourth. Kevin Rohrer, of Manheim R2, was fifth.

Kevin then took first in FFA fillers and Lefever captured his second, second spot. Glenn Ruhl again had third and James Gruber, of Blue Ball, was fourth. Fifth place went to Robert Reifsnyder.

Weaver Names Three To Sales Posts

Three changes have been announced in the sales division of Victor F Weaver Inc., New Holland

Donald H Welk, 380 Dallas Ave , Strasburg has been named to the newly created position of sales manager of the entire Weaver Prepared Food's Sales Division Welk joined Weaver in 1967 as a sales representative.

William E. Patterson, 303 Rolling Terrace, Leola has been named Retail Sales manager for Prepared Foods and Melvin M. Martin, 1709 Linwood Ave., Lancaster has been appointed Institutional Sales manager for Prepared Foods Department.

Patterson joined Weaver in 1969 as Assistant Sales Supervisor for institutional sales. Martin, who has been with Weaver since 1970, has represented the company as an institutional product salesman. In addition to supervising their areas of responsibility Patterson and Martin will assist in the development of new programs and marketing concepts.

Celery Awards Won by Funk

Local grower Amos Funk took five awards Sunday in celery judging at the Farm Show.

The Millersville R1 grower took first, second and third places in the Fordhook-Houser variety category, and first and second places in the easy bleaching variety.

The celery varieties are ones that Funk has been developing locally since the 1940's.

Small Grains Yields Down Substantially

The latest segment of the Commonwealth's agriculture to post a losing record for 1972 is small grains - wheat, oats, barley, rye - according to the Crop Reporting Service.

The final harvest was 33,092,000 bushels, down 20 percent from a year earlier As in earlier year-end crop and production reports, the sharp drop was blamed on both tropical storm Agnes and season long adverse growing weather before and after the great flood.

Losses were compounded on two fronts - substantial acreage was lost to the flooding and heavy rains and what survived produced a lower yield than in recent years.

The harvest, by variety, was: Oats, 16,652,000 bushels, down 20 percent, yield per acre down 26 percent to 46 bushels, Wheat, 8,608,000 bushels, down eight percent, yield down 11 percent to 32 bushels; Barley, 7,426,000 bushels, down five percent, yield down 13 percent to 47 bushels; Rye, 406,000 bushels, down eight percent, yield down 15 percent to 29 bushels

Soleil Farms Shows Champion Angus Bull

Clifford A. Teets, Freedom, Beaver County, captured the grand championship in Angus female classes at the 57th Farm Show with his early summer yearling, Seldom Seen Barbara Rose 4. The same heifer was earlier judged junior champion.

Reserve grand champion female was shown by John W. Holloway, 32 West Street Road, West Chester, Chester County, Soleil Miss Burgess 81, a spring yearling. The Holloway heifer also was judged reserve junior champion.

Soleil Farms, Inc., Downingtown RD1 Chester County, showed Marshall C 1211, that won the grand championship in bull classes. The animal is an early spring bull.

Reserve grand champion was shown by Samuel J. Wylie III, Nottingham RD2, Chester County. The bull, a spring-born calf, is Shipp Bardolier 2.

Clifford A. Teets, showed the junior champion, Ankonian Collosal OG, a spring yearling. Rishel Edlyn Farm and Mr. and Mrs. Sayre MacLeod, 1600 Pennsylvania Avenue, York, showed the reserve junior champion, Castle Rock Emulow A35, also a spring yearling.

The premier exhibitor award was won by Clifford Teets.

Deadline on Emergency Loans

The deadline for receiving applications for Farmers Home Administration Emergency Loans from farmers and Rural Housing Disaster Loans, will be January 15, according to Roy H. Giesmann, County supervisor USDA-FHA, 1383 Arcadia Road, Lancaster, who administers the programs in Lancaster and Chester Counties.

"To date", County supervisor Giesmann said "we have received 104 applications and we have processed 55 totaling $345,470.00 "

Pennsylvania was designated a major disaster area on June 21, 1972 by President Nixon, due to damage to farm land, crops, machinery, livestock, buildings, dwellings, etc., caused by Tropical Storm "Agnes". In Pennsylvania to date a total of 8,400 applications have been processed for a total of $37,555,200.

"Let's see now, if I lay 8.5 eggs every 10 days . . . !!?"

Let's leave the calculations to the experts. The Pennfield Poultry Experts.
To get optimal egg production they figure out exactly what your flock needs.

Call Pennfield today. Why? We've got the experts who can develop a feeding program that will give you bigger profits. Count on it!
